To whom it may concern:

Apparently your agency is not concerned with the legitimacy of any particular candidate. Does your remit cover oversight of fraud and Illegality of campaign contributions? If so, how is it possible for the Obama campaign to not only flaunt the constitution with regard to eligibility, but also to completely flaunt campaign contribtion laws? What oversight and review have you made? As far as I am able to discern you have not made any comments about any concerns you might have about this fraud. Why should the tax payers pay for an agency that seems mute about these important matters?

Yours truly

Joe Estep
