Sirs;

Why is there no mention in Obama's campaign of the illegal donations from overseas? Why does there appear to be discrepancies in totals and expenditures? Where are the missing names of donors and amounts? Why are you treating this campaign differently than those of others? This election reeks of abnormalities and infractions.

I, and my fellow countrymen, are demanding answers from you. And if we don't get them, we are prepared to go after you on the commission for the explanation as to why you felt it necessary to twist the rules for this one man.
