There appears to be enough irregularities, discrepancies and deviations from FEC regulations regarding them, in both the receipt and expenditure of campaign funds for the presidency of the Obama/Biden ticket, compared to that of the McCain/Palin ticket, to warrant a complete audit of said funds.

Please advise me if the Commission is going to pursue such an audit and, if not, the reasons for not doing so. If there is an audit, please advise me of the method by which I may track its progress.

Thank You.
