I realize that enforcing the law as it is intended is anathema in this day and age. However, if you can summon the fortitude and courage it takes to actually -you know do the right thing- and match the individual contributions via Act Blue, it would be appreciated.

Then again, what Federal Agency hasn't been subsumed by corruption? Alas, I'll not hold my breath as my request is made neither on behalf of a corporation nor at the whim of a Rethuglican.
