Please don't shut down ActBlue! ActBlue serves an important purpose, in that it only supports progressive candidates. Not Democratic candidates, not Republican candidates, but progressive ones! That is a very important distinction to me, and to my family and friends.

You can be literal and apply the law in a way it was never intended to be applied, or you can work with the *intent* of the law and carve out an exception for PACs like ActBlue, which don't do their own fundraising, but rather facilitate that of regular small dollar donors all over the country.

Please consider this matter carefully,
