I have heard there is a judgement being made soon by your agency on whether contributions made through ActBlue and similar online services should be counted as contributions from individuals that qualify for matching funds.

I have made contributions to candidates through ActBlue. When I used the service, it was clear to me the name of the candidate or group of candidates that would receive my funds. My understanding was that this system made it easier to send such contributions to candidates I wanted to support.

ActBlue's online system clear distinguished other contributions that would help pay for ActBlue's expenses in offering this service.

I thought of my contributions as coming from me as an individual.
I will be very disappointed if your decision causes any funds I have provided to candidates to be disqualified from matching funds.

Please take this into consideration when you make your decision.

Thank you.
