1976 PRESIDENTIAL CAMPAIGN RECEIPTS AND EXPENDITURES

CONTENTS

This 7th Report in the FEC Disclosure Series covers the financial activity of 23 Presidential candidates and their committees during the 1976 Presidential campaign. The field of 23 candidates includes the 15 who qualified for and received U.S. Treasury Primary Matching Funds (13 Democrats and 2 Republicans); the two major party general election candidates; and eight third party and independent candidates who appeared on the general election ballot in ten or more states.¹

The Report provides a comprehensive financial picture of each campaign, including sources of receipts, total receipts and expenditures, as reported and as adjusted, cash on hand, and the deficit or surplus position. In addition, summary tables, charts and graphs illustrate the distribution of receipts and expenditures among candidates by party affiliation, between private and public funds, and by election.

Financial figures used in this Report have been derived from disclosure documents submitted to the FEC by the candidates, their principal campaign committees, and other authorized committees.² These reports were submitted throughout the campaign period, which covered, for purposes of this Report, January 1, 1975, through December 31, 1976. It should be noted that figures presented in this Report are subject to change via subsequent amendments or FEC audits. Thus, totals and percentages may be affected as each 1976 Presidential campaign winds down.³ In assessing the significance of these figures, the adjusted totals provide the most accurate picture of actual income and costs for a campaign, as they eliminate items such as loan repayments, refunds, and transfers between affiliated committees.

The Report is presented in four parts. The first segment gives an overview of the financing for the entire 1976 Presidential election campaign,

¹ It should be noted here that there were a total of 267 candidates on file with the Federal Election Commission as Presidential candidates. Although not included in this study, their records can be found in the Office of Public Records at the Commission.

² Several candidates' principal campaign committees were not conversant with the new requirement of filing Consolidated Reports of Receipts and Expenditures (to include

showing \$113,986,491 in adjusted receipts and \$112,775,207 in adjusted expenditures. In this first campaign for which public financing was available to candidates, public funds provided 60% of the total adjusted receipts.

The second section, on the Primary election period, shows that 35% of adjusted receipts for the 15 candidates was comprised of public funds. Additional charts and graphs provide comparisons among the 15 campaigns, including the levels of private contributions. Tables at the end of the section provide greater detail for all categories of primary receipts and expenditures for each candidate. A table on expenditures allocated for each state is also included.

The third portion of the Report concerns financial statistics for the 1976 General election, which was 95% financed with public funds. The financial activity of the eight other party and independent candidates appears in detail in this section.

The fourth and final section is an Index of each of the 23 Presidential candidates, itemizing each financial document filed by the candidates, their principal campaign committees and other authorized committees, and other financial aspects of their campaigns.

All disclosure reports are available for public review and/or copying at the Federal Election Commission, "Provided, that any information copied from such reports and statements shall not be sold or utilized by any person for the purpose of soliciting contributions or for any commercial purpose." (2 U.S.C. Section 438(a)(4))

all authorized committees). Therefore, this Report represents the best efforts of the Commission staff to determine actual campaign income and costs without inflating or understating figures. More detailed financial data can be found in the actual disclosure reports filed.

³ Amended reports concerning 1975/1976 financial activity filed prior to March 31, 1977, have been taken into consideration.

DEFINITIONS

PRIVATE FUNDS:

Contributions received from individuals, candidates, party and non-party political committees, and other organizations or associations. Also included in this category are outstanding loans, interest, and miscellaneous income. Totals in this category have been adjusted for contribution refunds and loan repayments.

INDIVIDUAL CONTRIBUTIONS:

\$0 to and including \$100: Contributions reported in this amount, including total unitemized contributions.

\$101 - \$499: Contributions reported in this amount, including number of contributions in this category.

\$500 - \$1,000: Contributions reported in this amount, including number of contributions in this category.

NOTE: Number of contributions has been tabulated from each entry on disclosure documents and may include more than one contribution from the same contributor.

CANDIDATE CONTRIBUTIONS:

Monies reported as contributions from the candidate. Also included and footnoted where identified are contributions of \$1,000 and above from members of the candidate's immediate family. (Prior to May 11, 1976, the combined contributions of the candidate and his immediate family were limited to \$50,000 per election. Following enactment of the May 11, 1976 FECA Amendments, members of the candidate's immediate family were each limited to \$1,000 per election.)

POLITICAL COMMITTEE CONTRIBUTIONS:

Party - Total monies received from Party-related Political Committees.

Non-Party - Total monies received from Non-Party Political Committees.

LOANS:

Candidate Loans: Loans from the candidate to his committee(s). Outstanding loans as of 12/31/76 are followed by the amount of original loans in parentheses.

Other Loans: Loans from sources other than the candidate. Outstanding loans as of 12/31/76 are followed by the amount of original loans in parentheses.

U.S. TREASURY FUNDS:

Primary Matching Funds were given to 15 candidates in the primary election who qualified by raising \$5,000 in 20 or more states in contributions from individuals not exceeding \$250. Each private dollar was matched on a one-to-one basis, up to \$250 per contributor.

The figures in this category are as certified by the Federal Election Commission, and not necessarily as reported by the candidates/committees. Figures are as of 12/31/76, and are subject to adjustment by repayment or subsequent certification of additional matching funds.

TOTAL RECEIPTS/EXPENDITURES AS REPORTED:

These are gross figures and have been computed from a report-by-report analysis of disclosure documents. Figures in this category may not coincide with calendar-year-to-date totals reported by the candidates and committees on their year-end reports, since analyses often showed these aggregate figures to be incorrect.

TOTAL RECEIPTS/EXPENDITURES ADJUSTED:

This category has been adjusted to eliminate refunds or rebates, refunded contributions, loan repayments, and transfers to or from affiliated committees. The adjusted figures provide the most accurate picture of net income and costs for the campaign.

OTHER CANDIDATES:

Candidates of third parties and independent candidates who were on the general election ballot in ten (10) or more states.

1976 PRESIDENTIAL ELECTION CAMPAIGN:

Covers the period January 1, 1975, through December 31, 1976, and includes both primary and general elections.

PRIMARY CAMPAIGN:

Financial activity on behalf of primary election efforts. This term includes all 27 preference primaries and, except where footnoted, activity on behalf of delegate selection primaries.

CASH ON HAND:

Figures exactly as shown on 1st Quarter 1975 Reports (or first Report filed) and Year-End 1976 Reports. These figures may therefore differ from those derived from statistics.

DEFICIT OR SURPLUS:

This is a theoretical figure derived by subtracting the amount owed by the committee, or adding the amount owed to the committee, from or to the Cash on Hand figure reported on the Year-End 1976 Report. Where totals are given for all those candidates in a deficit or surplus position, the number of candidates in that position is shown in parentheses.

² Figure is as of 6/30/76, and does not appear on Year-End 1976 Report.

³ Some authorized committees, while continuing to file separate reports, transferred debts to the candidate's principal campaign committee. Therefore, the total deficit reported may be an inflated figure.

STATE-BY-STATE ALLOCATION OF PRIMARY EXPENDITURES: Major Party Candidates

1976 was the first election in which Presidential candidates and their authorized committees were required to allocate their expenditures on a state-by-state basis. The following table provides the allocated expenditures reported by the 15 Presidential Primary candidates. It shows that \$37,896,753, or 48% of the total \$78,349,873 in reported expenditures was allocated by these candidates to their campaign efforts in the various states.

Each of these candidates received U.S. Treasury Primary Matching Funds and were, therefore, subject to a spending limit in each state, based on the voting age population in that state. In addition, each candidate was subject to an overall spending limitation for the Primary election period of \$10,000,000. This limit was increased to reflect adjustments in the cost-of-living. A 20% exemption for fundraising purposes was also applied, which, in effect, raised the total spending limit to \$13,092,000 per candidate.

Due to the complexity of the new election law, many candidates and their authorized committees were unsure of the allocating procedure. In addition, certain campaign costs simply could not be attributed to a particular state. Expenditures which fell into the 20% exempt fundraising category did not have to be allocated. Similarly, expenditures for legal and accounting purposes were not subject to limitation or allocation. Therefore, figures on the table may not represent what was actually spent to influence the Primary election in a particular state.
