Dear Ms. Smith:

This letter supplements our request dated May 13, 2003 with additional information and enclosed documentation, including information and documentation requested in your letter dated May 21, 2003.

Missouri Green Party, Inc. ("MGP") is a "party committee" because it is a political committee which represents the Green Party in Missouri and is part of the official party structure at the state level. (See official web site of the Missouri Secretary of State at <http://www.sos.mo.gov/elections/02contactparties.asp>). MGP is a "political committee" because it made expenditures exceeding \$1,000 in calendar year 2002 (see MGP's Forms 3X on file with your office for 2002) and has been registered with the FEC for over a year (Committee #C00376533).

With respect to MGP's affiliation with The Greens/Green Party USA ("GPUSA"), a letter from the Coordinating Committee of GPUSA is enclosed.

As to other political organizations within the Green political movement, our affiliation with GPUSA includes affiliation with the Gateway Green Alliance ("GGA," also known as the Green Party of St. Louis); however, since GGA is incorporated, primarily conducts activities oriented to education and is not registered as a political committee, all funds transferred to MGP from or through GGA are deposited exclusively in MGP's non-federal account.

MGP is also affiliated with the Green Party Central Committee, City of St. Louis (GPCC), an official Green Party organization under Missouri law for the City of St. Louis, a jurisdiction where the Green Party has earned permanent ballot status. GPCC's

non-federal funds are registered with the Missouri Ethics Commission, and its federal funds will be registered with the FEC as soon as it raises or spends the requisite amount to constitute a political committee under FEA. I am treasurer of GPCC. Official committees in other counties in which MGP has permanent ballot status have not yet been formed.

MGP has filed an application for affiliation with the Green Party of the United States ("GPUS," formerly the Association of State Green Parties), but GPUS has neither accepted nor rejected the application after approximately two years. For purposes of this application, MGP claims no affiliation with GPUS.

To the best of our knowledge, MGP and its local affiliate GPCC are the only organizations running candidates on the Green Party ticket in the State of Missouri. Some people who worked with MGP in 2000 broke away in 2002 and formed a new party called the Progressive Party of Missouri ("PPM"), which is affiliated with GPUS, but which has not placed any federal candidates or nominees on the ballot and has only placed two state candidates on the ballot, both in state legislative districts in the Kansas City area collectively covering less than 2% of the state's voters. That organization and its candidates run under the separate "Progressive Party" ticket and do not run under the name Green Party. As of the date of this letter, PPM is not registered as a committee with either the FEC or the Missouri Ethics Commission. The GPUS web site ([www.gpus.org/states/missouri.htm](http://www.gpus.org/states/missouri.htm)) reports that PPM does not maintain any web site, and I am not personally aware of any PPM web site. We do not know whether PPM has any aspirations for state party status, because its members pointedly do not communicate with us.

The Green Party of Central Missouri ("GPCMO") worked with MGP in both the 2000 and 2002 petition drives, and some of its members appeared on the ballot as MGP candidates in both elections, but the organization has attempted to be friendly with both MGP and PPM and reportedly prefers not to be formally affiliated with either. Some members of GPCMO who prefer to be affiliated with MGP are in the process of forming a separate organization, the Green Party of the 9<sup>th</sup> Congressional District, but that organization is in its early formative stages.

Respect or affinity with MGP's attempt to gain state party committee status on the part of a federal Green Party candidate in Missouri who qualifies as such under 2 U.S.C. 431(2) is evidenced by the enclosed letter from Winona LaDuke, Green Party candidate for Vice-President in 2000. That year Ms. LaDuke was the vice-presidential nominee of both GPUSA and the Association of State Green Parties (now known as GPUS).

In addition, a letter of endorsement from Daniel "digger" Romano, MGP's 2002 U.S. Senate nominee, is also enclosed. Mr. Romano appeared on the Missouri ballot statewide, participated in a nationally televised U. S. Senate candidate debate on C-SPAN, received over 10,000 votes, and meets all "candidate"

requirements except the monetary threshold. The Commission recognizes that federal limits on contributions to federal candidates are not limited to those who meet the monetary threshold of the formal definition of "candidate" in 2 U.S.C. 431(2), and MGP submits that the same candidates who are barred from receiving over \$2,000 each from contributors other than oneself should also be recognized as candidates for purposes of defining a state party. The monetary threshold in 2 U.S.C. 431(2) was only intended to define a threshold for reporting and disclosure requirements, and the intent and spirit of the Federal Election Act are violated by allowing such a "money talks" standard to define artificially who is recognized as a competitor (or in practical application, to restrict the financial support that a political party can provide to such a nominee in the form of coordinated expenditures).

Please advise whether the Commission will now recognize MGP as a state party committee for Missouri. If not, please confirm that MGP, if not a state party committee, is nevertheless a "party committee" instead of merely a non-connected committee.

Thank you for your consideration.

Re: Application for "state party committee" status  
Of Missouri Green Party, Inc. (Committee no. C00376533)

Although I have declined nomination this year, I was the Green Party candidate for Vice-President in 2000. The states in which my candidacy appeared on the ballot included the State of Missouri. Members of Missouri Green Party, Inc. circulated nominating petitions and obtained more than 10,000 signatures to secure Missouri ballot status for myself, my presidential running mate Ralph Nader and 16 other Green Party candidates in that state.

I am advised that, in the 2002 off-year election, Missouri Green Party, Inc. conducted another successful petition drive, placing Green Party nominees for U.S. Senator, one seat in the U.S. House of Representatives and five state and local candidates on the ballot.

I am pleased to acknowledge the authority of Missouri Green Party, Inc. to represent the Green Party in Missouri and to support its request for "state party committee" status with the Federal Election Commission.

Sincerely,

Re: Missouri Green Party, Inc. C00376533  
Request for recognition as state party committee

Missouri Green Party, Inc. ("MOGP") respectfully requests an advisory opinion recognizing it as the state committee for the Green Party in the State of Missouri.

MOGP runs candidates for office in the State of Missouri under the Green Party label. The party publicizes its activities, platform and candidates on its official web site at **www.mogreens.org**. MOGP is registered as a political committee with the FEC (#C00376533). I am the committee treasurer.

MOGP was incorporated for liability purposes only as a Missouri not-for-profit corporation on February 14, 2000. Copies of its Certificate of Incorporation from the State of Missouri and its Articles of Incorporation and ByLaws are enclosed. The bylaws of MOGP establish that MOGP is responsible for the day-to-day operation of a political party at the state level. These bylaws set out an identifiable organizational structure for the party with varying responsibilities and delineate activity commensurate with the day-to-day functions and operations of a political party on a state level.

MOGP organized successful petition drives to get the Green Party on the statewide Missouri ballot in 2000 and 2002, and plans another such drive in 2004. MOGP is an "established political party" under Missouri law (i.e., has attained permanent ballot status) in several Missouri counties, state senate districts and state house districts, entitling the party to establish official party committees in each such county and district. At least two such committees have been formed, and others are expected to be formed prior to the 2004 election. These committees are expected to file with the FEC when they meet the \$1,000 fundraising threshold for the FEC's definition of "political committee."

MOGP has placed a total of 29 candidates on the Missouri ballot starting in 2000, including candidates for president, vice-president, U.S. Senator and 6 seats for U.S. Congress in 2000 (<http://www.sos.state.mo.us/enrweb/allresults.asp?arc=1&eid=14>), a candidate in a special election in 2001 (see <http://www.sos.state.mo.us/enrweb/allresults.asp?arc=1&eid=59>) candidates for U.S. Senator and 1 seat for U.S. Congress in 2002 (<http://www.sos.state.mo.us/enrweb/allresults.asp?eid=87>), and two candidates in the St. Louis municipal election in 2003 (<http://stlcn.missouri.org/bdelection/elections/apr03city.cfm>). A complete list of MOGP candidates that appeared on the ballot is enclosed. Two of these candidates (Ralph Nader and Winona LaDuke) met the \$5,000 fundraising threshold for the FEC's definition of "candidate."

MOGP is not affiliated with Green Party of the United States (GPUS), which the FEC recognizes as the national committee for the Green Party. MOGP is affiliated with a rival national Green organization, Greens/Green Party USA. Barbara Chicherio, MOGP chair, is a member of its national coordinating committee.

MOGP and the various county and district Green Party organizations in Missouri are recognized as party committees for state law purposes but not yet for federal law purposes. When MOGP originally filed its organizational papers with the FEC, the FEC designated MOGP a non-connected committee instead of a state party committee, pending application for an advisory opinion as to its status.

FEDERAL ELECTION COMMISSION  
Washington, DC 20463

May 21, 2003

Timothy V. Barnhart  
Missouri Green Party, Inc.  
6420 Murdoch Avenue  
Saint Louis, Missouri 63109

Dear Mr. Barnhart:

This refers to your letter dated May 13, 2003, which requests advice concerning application of the Federal Election Campaign Act of 1971, as amended ("the Act"), to the possible status of the Missouri Green Party, Inc. ("State Party") as a State party committee of a political party.

As evidence of your possible status, you submit copies of the State Party's Certificate of Incorporation, Articles of Incorporation, By-Laws and a list of State and Federal party candidates for the period from 2000 to 2003. You state that the State Party is not affiliated with the Green Party of the United States but is affiliated with another national Green Party organization, Greens/Green Party USA.

The Act authorizes the Commission to issue an advisory opinion in response to a "complete written request" from any person with respect to a specific transaction or activity by the requesting person. 2 U.S.C. 437f(a). Commission regulations explain that such a request "shall include a complete description of all facts relevant to the specific transaction or activity with respect to which the request is made." 11 CFR 112.1(c).

Your inquiry requires a more complete description of the facts in order to proceed with an advisory opinion. Therefore, please provide the following information:

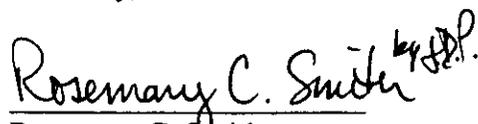

1. With respect to your affiliation with the Greens/Green Party USA, provide a letter from that organization that recognizes your affiliation with that organization and recognizes your claim to state party committee status. Describe your organization's relationship with any other political organization within the Green political movement in the State of Missouri or any other national political Green movement organization. If you claim affiliation with any other Green Party organization, State or National, provide a letter from that organization recognizing your affiliation. In particular, you should state

whether there are any other Green party entities in the State of Missouri that also claim to be a State committee of a political party and describe your relationship to those organizations, if they exist.

2. As noted above, your request lists Green Party Federal candidates who attained ballot access in Missouri. Provide signed statements from those Federal candidates who qualified as Federal candidates under 2 U.S.C. 431(2) showing support or affinity with the Missouri Green Party's attempt to gain State party committee status. Any letter submitted should be signed, should identify the author as a current or past Missouri Green Party candidate for Federal office, should acknowledge the authority of the Missouri Green Party to represent the Green Party in Missouri and should state that candidate's support for the Missouri Green Party request for State party committee status. All such letters should be provided to you, and you should then submit them to this office. Please note that if these candidates also claim identification and support for the Green Party of the United States, they should explain any dual identification.

Upon receipt of your response, this office will give further consideration to your inquiry. If you have any questions about the advisory opinion process, or this letter, please contact Michael Marinelli, a staff attorney in this office, or Mai Dinh, Acting Assistant General Counsel, at 202-694-1650.

Sincerely,
