Subject Proposed FEC regulation change

Brad C. Deutsch, Assistant General Counsel

Dear Mr. Deutsch,

I urge the FEC to rule in favor of free speech and also in favor of transparency, by doing nothing to restrict political documentaries that can be claimed to be electioneering from being advertised, except for a reasonable four week moratorium just prior to the election. Also, please ensure transparency by requiring full disclosure of funding sources for such documentaries. Let the public judge whether or not there is merit to the documentaries' claims.

Thank you,
