FOR FURTHER INFORMATION CONTACT:
Gordan Gundersen, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 415–6195 (E-mail: GEG@nrc.gov).

SUPPLEMENTARY INFORMATION:
On February 27, 2001 (66 FR 12435), the NRC published in the Federal Register a direct final rule amending its regulations in 10 CFR part 72 by revising the BNFL Fuel Solutions FuelSolutions™ cask system listing within the “List of Approved Spent Fuel Storage Casks” to include Amendment No. 1 to the Certificate of Compliance (CoC). Amendment No. 1 will modify the present cask system design to allow the Big Rock Point nuclear facility to store mixed-oxide fuel assemblies, partial fuel assemblies, and damaged fuel assemblies (in a can) under a general license. In the direct final rule, NRC stated that if no significant adverse comments were received, the direct final rule would become final on the date noted above. The NRC did not receive any comments that warranted withdrawal of the direct final rule. Therefore, this rule will become effective as scheduled.

Dated at Rockville, Maryland, this 27th day of April, 2001.

For the Nuclear Regulatory Commission.

Michael T. Lesar,
Chief, Rules and Directives Branch, Division of Administration.

BILLING CODE 7590–01–P

FEDERAL ELECTION COMMISSION

11 CFR Parts 100, 109 and 110

[Notice 2001–5]

General Public Political Communications Coordinated With Candidates and Party Committees; Independent Expenditures

AGENCY: Federal Election Commission. 

ACTION: Final rule; announcement of effective date.

SUMMARY: On December 6, 2000, the Commission published the text of revised regulations governing general public political communications coordinated with candidates and party committees, and independent expenditures. 65 FR 76138. The Commission announces that these rules are effective as of May 9, 2001.

EFFECTIVE DATE: May 9, 2001.

SUPPLEMENTARY INFORMATION: The Commission is announcing the effective date of revised regulations at 11 CFR Parts 100, 109 and 110, that address expenditures for coordinated communications that include clearly identified candidates, and that are paid for by persons other than candidates, candidates’ authorized committees, and party committees. The rules, which largely follow the United States District Court for the District of Columbia’s decision in Federal Election Commission v. The Christian Coalition, 53 F.Supp.2d 45 (D.D.C. 1999), address expenditures for communications made at the request or suggestion of a candidate, authorized committee or party committee; as well as those where any such person has exercised control or decision-making authority over the communication, or has engaged in substantial discussion or negotiation with those involved in creating, producing, distributing or paying for the communication. The rules also revise the definition of “independent expenditure” to conform with this new definition.

Before final promulgation of any rules or regulations to carry out the provisions of Title 2 of the United States Code, the Commission transmits the rules or regulations to the Speaker of the House of Representatives and the President of the Senate for a thirty legislative day review period. 2 U.S.C. 438(d). These rules on coordinated and independent expenditures were transmitted to Congress on January 4, 2001. Thirty legislative days expired in the Senate on March 12, 2001, and the House of Representatives on March 29, 2001.

Announcement of Effective Date: Revised 11 CFR 100.16; 109.1(a), (b)(4), and (d)(1); and 110.14(f)(2) and (f)(3); and new 11 CFR 100.23, as published at 65 FR 76138 (Dec. 6, 2000), are effective as of May 9, 2001.

Federal Aviation Administration

14 CFR Parts 27 and 29

Rotorcraft Airworthiness Standards

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Technical amendment.

SUMMARY: This document contains technical amendments to a final rule that was published in the Federal Register on December 20, 1976 (41 FR 55454). That final rule amended the airworthiness standards for normal and transport category rotorcraft under Parts 27 and 29 of title 14, Code of Federal Regulations (CFR). The particular sections being amended relate to limit regulations (CFR). The particular sections being amended relate to limit

fatigue cracking of the horizontal stabilizer pivot bulkhead and adjacent structure, which could result in loss of the horizontal stabilizer. This action is intended to address the identified unsafe condition.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 24, 2001.

Comments for inclusion in the Rules Docket must be received on or before July 9, 2001.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 24, 2001.

Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays. Comments may be submitted via fax to (425) 227–1232. Comments may also be sent via the Internet using the following address: 9-amn

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 24, 2001.

ARDF by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 24, 2001.

Comments may be submitted via fax to (425) 227–1232. Comments may also be sent via the Internet using the following address: 9-amn

Background

The final regulations that are the subject of these amendments were originally codified as:

• Civil Air Regulations (CAR) 7.225 and 7.226, recodified as 14 CFR 29.397, effective February 1, 1965, and later amended by Amendment 29–12, effective February 1, 1977; and

• CAR 6.225 and 6.226, recodified as 14 CFR 27.397, effective February 1, 1965, and later amended by Amendment 27–11, effective February 1, 1977, was intended to establish a maximum pilot force for twist controls of 80R inch-pounds.

However, as published, the final regulations contain an error that has long been recognized by the FAA and industry as being misleading and in need of clarification. When these regulations were previously published, we inadvertently omitted the word “inch” in the phrase “Twist controls, 80R inch-pounds”. These technical amendments clarify that the appropriate measurement is to be in “inch-pounds” not “pounds”.

The Amendment

Accordingly, the Federal Aviation Administration amends 14 CFR parts 27 and 29 by making the following technical amendments:

PART 27—AIRWORTHINESS STANDARDS: NORMAL CATEGORY ROTORCRAFT

1. The authority citation for part 27 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701–44702, 44704.

2. § 27.397(b)(2) is amended by revising “80R pounds” to state “80R inch-pounds”.

PART 29—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY ROTORCRAFT

3. The authority citation for part 29 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701–44702, 44704.

4. § 29.397(b)(2) is amended by revising “80R pounds” to state “80R inch-pounds”.

Issued in Washington, DC, on May 3, 2001.

Donald P. Byrne,

Assistant Chief Counsel for Regulations.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to certain Boeing Model 767–200, –300, and –300F series airplanes. This action requires inspections for fatigue cracking of the horizontal stabilizer pivot bulkhead, and repetitive inspections or other follow-on actions. This action also provides a permanent repair, which is optional for airplanes with no cracks, and, if accomplished, ends the repetitive inspections. This action is necessary to find and fix
