SUPPLEMENTARY INFORMATION: The Federal Election Commission ("Commission") has received a Petition for Rulemaking from America's Community Bankers and its SSF. The Commission seeks comments on this issue. In particular, the Commission asks: Do the proposals by the petitioners represent permissible interpretations of the Federal Election Campaign Act, as amended, specifically 2 U.S.C. 441b? If so, which policy and factual considerations support, and which oppose, petitioners' proposal?

Copies of the Petition for Rulemaking are available for public inspection at the Commission's Public Records Office, 999 E Street, NW., Washington, DC 20463, Monday through Friday between the hours of 9 a.m. and 5 p.m., and on the Commission's Web site, <http://www.fec.gov>. AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for all AeroSpace Technologies of Australia Pty Ltd. (ASTA) Models N22B, N22S, and N24A airplanes. This proposed AD would require you to repetitively inspect wing fittings for fatigue defects, replace or correct defective wing fittings, and replace the stub wing front spar assembly and wing fitting when fatigue life limits are reached. This proposed AD is the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for Australia. We are issuing this proposed AD to detect and correct defects in the wing strut upper end fittings, wing strut lower end fittings, stub wing strut pick up fittings, and the stub wing front spar assembly. These defects could result in failure of the fittings or spar assembly and lead to reduced structural capability or reduced controllability of the airplane.

DATES: We must receive any comments on this proposed AD by December 4, 2003.

ADDRESSES: Use one of the following to submit comments on this proposed AD:
