Re: Complaint Against Jack Davis and Jack Davis for Congress

Dear Mr. Norton:

I hereby submit this complaint pursuant to 2 U.S.C. §441d against John "Jack" Davis and Jack Davis for Congress.

**I. FACTUAL BACKGROUND:**

John "Jack" Davis is the Democratic candidate for the United States Congress, House of Representatives, from the 26<sup>th</sup> District of New York in the upcoming election to be held November 2, 2004. Candidate Davis has established a principal campaign committee, *Jack Davis for Congress* (FEC ID # C00397794).

Candidate Davis and his Committee have distributed printed campaign materials, maintained a campaign website and placed print advertising in the October 7, 2004 Akron Bugle.

**II. VIOLATIONS:**

Political committees must include a disclaimer on all "public communications" regardless of whether the communication expressly advocates the election or defeat of a clearly identified candidate or solicits funds in connection with a federal election. Specific examples of public communications that would require a disclaimer include a political committee's website, newspaper advertisements, and printed materials. See 2 U.S.C. §441d; 11 CFR 110.11(a).

**A. Disclaimer Notices:** Candidate Davis' printed material violates 2 U.S.C. §441d and 11 CFR 110.11 (c)(2)(i)-(iii). According to these regulations, notice must

25190260339

appear within a printed box set apart from the other contents in the communication and the print must be of a sufficient type-size to be clearly readable by the recipient. Further, in the case of single-sided documents, the disclaimer must appear on the front pursuant to 11 CFR 110.11(c)(2)(iv). The Davis printed materials (Attachments 1 through 8) have either no disclaimer or an insufficient disclaimer.

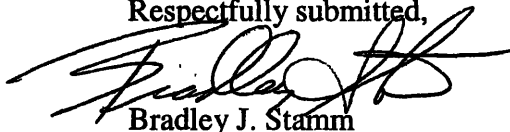

B. Website: The Davis for Congress website (Attachment 9) also violates 2 U.S.C. §441d and 11 CFR 110.11 because it has no disclaimer whatsoever.

C. Newspaper Advertisement: Davis' advertisement in the Akron Bugle newspaper on October 7, 2004 (Attachment 10) further violates 2 U.S.C. §441d and 11 CFR 110.11 because it has no disclaimer.

III. CONCLUSION:

For the reasons set forth above, I respectfully request that the Federal Election Commission find that a violation of the law has occurred, and that an investigation be commenced immediately.

Respectfully submitted,

Bradley J. Stamm

State of New York

# BALANCE ) TRADE NOT FREE TRADE

America has become a nation of consumers of foreign products. Because of this, America has suffered a serious loss of jobs, farms and industries

America needs Balanced Trade. Described in simple terms, balanced trade would require a country selling products to the U.S. to buy an equal dollar amount of products or services from the U.S. Historically, the proven method of controlling imports is with tariffs

To obtain balanced trade, the United States will charge a balancing tariff (tax) on imported products. The amount is variable and will be increased until the dollar value of imported goods is equal to the dollar value of goods sold to that country.

The ideal goal of Balanced Trade is equal trade with zero tariffs

If Americans choose not to buy imported products at the higher prices, good BUY AMERICAN This will put the American factories and their employees back to work.

Placing a duty on imported products will send a strong message America is serious about balanced trade.

Who do you think knows more about saving and creating jobs, balancing budgets and reducing debt -- an entrepreneur and engineer who has been there and done it for 40 years, or Tom Reynolds, an insurance agent, real estate salesman and career politician?

## WHO IS JACK DAVIS?

I grew up in Western New York and graduated from the University of Buffalo with a degree in Engineering

I am married, have 6 children and 13 grandchildren

For three years I served as a deck officer in the Coast Guard. I resigned from the Coast Guard Reserves as a Lieutenant in 1964

I worked at Chevrolet Tonawanda Foundry and Carborundum as an engineer for a total of 6 years

In 1964, I founded the I Squared R Element Company, which I own and manage. I started the company in my garage and now have a plant over 70,000 square feet on 10 acres of land. We are the largest silicon carbide heating element manufacturer in the U.S. The elements are used in high temperature electric furnaces

I have 75 employees (average wage \$25 per hour), a gross payroll of \$4.5 million and had approximately \$10 million in sales in 2003

The business is not for sale and is not moving production to China

I am a patriot, love America, and with this comes a duty and responsibility to protect America. America is in a trade war and we are losing. That is why I am on a mission to save jobs, farms, and industries. I have decided I can be most effective in this mission by becoming a Congressman

I am not running for economic benefit nor is it for recognition. I will contribute 1.2 million dollars to my campaign

## MY PLATFORM

1 I pledge to work to change America's policies on globalization, free trade, NAFTA and the WTO. We must pursue a policy of balanced trade, as opposed to the current failed free trade

2 I am a leader not a follower. I will lead the battle to save

American jobs, farms and industries

3 I support enforcement of America's Immigration Laws

- No amnesty for illegal aliens.
- Limiting H-1b visas
- Strictly enforce border security
- Deporting illegal aliens

4 I will take the lead in proposing laws to reduce the high cost of health care and the high cost of prescription medicine for working families and retirees

5 I support elimination of the Death Tax to protect family farms and family businesses from being lost due to confiscatory estate taxes

6 I support a strong national defense. A strong defense needs a strong economy and a healthy manufacturing base.

7 I will not vote for an income tax increase

8 I support balancing the Federal budget by putting Americans back to work and by cutting wasteful spending

9 I support term limits

10 I will represent the people of the 26th District, not special interest groups. I will not accept contributions from multinational companies that are outsourcing our jobs. I seek the support of Democrats, Republicans, Conservatives, Independents and all people who care about America

## THE CASE AGAINST FREE TRADE, NAFTA & WTO

"Free trade" is like apple pie, motherhood, liberty and free speech. Americans are for it.

Suggesting job protection and tariffs is deemed by many un-American. Wrong - trust me. Un-American is not fighting to keep America strong

Free trade means - no tariffs or duties at the border

In theory, free trade allows access to low cost consumer goods and therefore improves the standard of living. Also, that workers who lose their jobs to imported foreign products quickly find other jobs. That is, we are better off and have a higher standard of living due to free trade. Wrong, none of this has happened in America. We have been misled

Over the last 20 years, for the 3/4 of the U.S. labor force, those that lack college degrees, the effect of free trade has been a lower standard of living

The Chinese communist government has stated they want to be the world's manufacturer. They have declared economic war and they are winning.

There are 60 million unemployed Chinese willing to work for under \$1.00 per hour.

The U.S. manufacturer's average labor rate is \$20/hour. No U.S. manufacturer can compete with labor rates 5%, that is 1/20, of their rates

The U.S. has lost 3,000,000 private sector jobs in 3 years with no signs of a let up. There are over 15,000,000 unemployed. The number of under employed is also huge. Not since the depression have we lost jobs 3 years in a row. Don't believe the unemployment numbers from the federal government, when you run out of benefits, or stop looking for work, you are not counted as unemployed. We have lost complete industries to free trade. Examples: entertainment electronics, garments, toys and leather goods. We are losing automobile, ceramics, glass, steel, furniture, plastics, tool and die machine tools and others. There is not a business that has not been affected

After 30 years of free trade, look at the facts;

- Total trade deficits of \$3.8 trillion dollars of which over 1 trillion dollars is owed to our Asian suppliers
- Trade deficit \$435 billion last year and increasing each year.
- Trade deficit \$125 billion with China, mostly manufactured products and increasing

- Federal budget deficit \$1 billion last year. Why? Workers pay taxes nor do companies that are not profitable.

- Pittsburgh, Buffalo, Rochester, Syracuse, Utica, Albany, Binghamton, New York City and State of New York are all operating on deficits

- Family debt is also at record highs

- When companies lose business to foreign competitors, families lose jobs, health benefits and pensions

Looking at all these facts - free trade has definitely not improved our economy

An increasing gross domestic product is not a measurement of a good economy. GDP can be increased by borrowing, over spending and going into destructive debt.

An increasing value of the Dow averages is not a measurement of a good economy. Fifty percent of Americans own some stock. This increases their assets and retirement funds but is not what they live on

A good economy for the majority of Americans is employment, a living wage, a possibility for advancement, affordable housing, affordable medical care, funded retirement, and a stable currency

In an article in the Los Angeles Times on Monday, February 9, 2004, the Bush Administration said "the movement of American factory jobs and white-collar work to other countries is part of a positive transformation that will enrich the U.S. economy over time, even if it causes short-term pain and dislocation"

Washington elected and elite, both Republicans and Democrats, believe that free trade is good for America. They are as wrong about this as they were about prohibition.

Union and non-union workers have known for 30 years that it was bad for them. No one did anything

The Wall Street Journal reports "a majority of Americans now say Free Trade is not worth it because local jobs are lost". They also found 54% believe the U.S. companies that send work overseas are giving away jobs

Twelve months ago I was a free trader. Not any more. It was not until I researched the free trade issue that I was able to see the damage it was causing America.

We need balanced trade not free trade.

**Why would the nation's largest drug companies contribute thousands of dollars to Congressman Tom Reynolds' re-election campaign?**

**Why does Congressman Tom Reynolds vote to keep citizens in his district from buying lower cost prescription drugs in nearby Canada?**

**Why did Congressman Tom Reynolds vote in favor of the Australian Free Trade Agreement? It specifically prohibits importing lower cost prescription drugs from Australia. Many of these were manufactured in America.**

**Is Tom Reynolds voting to help you ---- or help himself?  
Is Tom Reynolds' vote for sale?**

**SAVE AMERICAN JOBS!  
JACK DAVIS FOR CONGRESS**

## LINING UP SUPPORT IN WESTERN NEW YORK

Congressman Tom Reynolds likes to say he's working for you. But he keeps voting for policies that send our jobs overseas to cheap-labor countries.

October 7 he voted for the FISC corporate tax bill that makes it more profitable for Kodak and Delphi to invest in China rather than in Rochester or Lockport.

In June, Reynolds voted to give a \$10 billion Homeland Security contract to a foreign company. So if you're a computer engineer in Amherst or Monroe County, don't expect any of that money to end up in your pocket.

And if you're graduating from U.B. or R.I.T., chances are you won't be working around here.

Reynolds' votes for the Australia Trade Agreement and the Andean Trade Preferences Act let duty-free imports of dairy and vegetables undercut prices for farmers in Attica and Elba.

Whether you work at a machine or a desk, whether you spend time in a classroom, on a factory floor or on a tractor, you are in line to be outsourced.

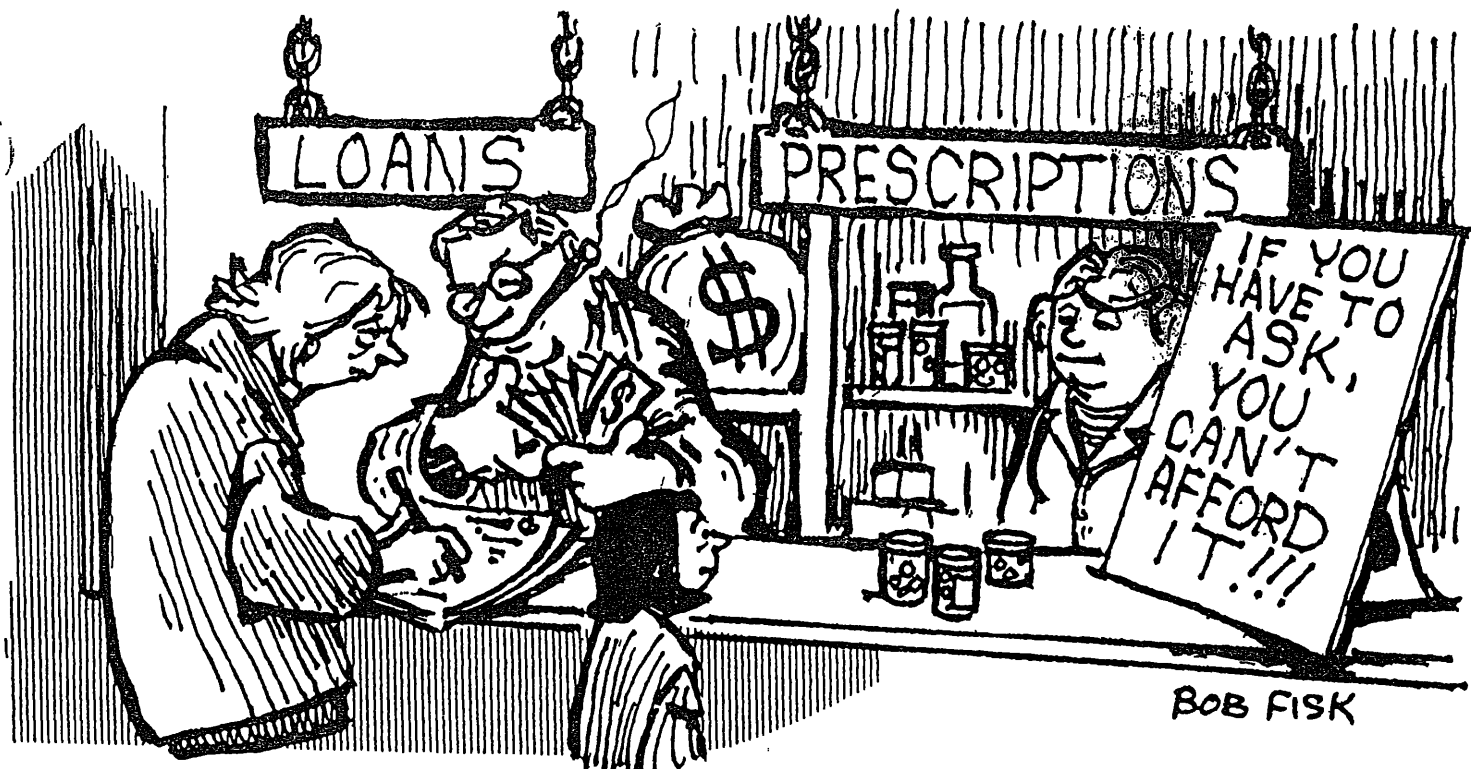

And it's sad when the man in Washington who's supposed to be looking out for us is looking out for the outsourcing multinational companies instead.

June 17, 2004

Dear Members of the Independence Party:

Is Reynolds buying more votes?

The Buffalo News reported that Tom Reynolds gave at least \$155,000 to Albany Republicans and they rewarded him with a safe district (26<sup>th</sup>). There are approximately 183,000 Republican and 137,000 Democratic voters in the district. This is no accident in Western New York, where there are about an equal number of registered Republicans and Democrats.

The Democratic process of 'one man, one vote' is further corrupted by the selection process used by the Independence Party to nominate the candidate for the 26<sup>th</sup> district.

There are seven counties in the 26<sup>th</sup> district. Monroe County, due to the preponderance of Golisano voters in the last election, will select the nominee for Congress in the 26<sup>th</sup> district. Monroe County represents only 21% of the total number of registered Independence Party members.

There were 3 Independence Party committee members (Don Porto and two others), when I presented my platform and request for the Independence Party endorsement. I am quite sure I convinced the two committee members to vote for me. From what I can determine, Don Porto, the chairman of the Independence Party, made the decision to give the nomination to Tom Reynolds.

Therefore, one vote decided for almost 10,000 Independence Party members whether the 'Save Jobs' candidate, Jack Davis, would be on the Independence Party ballot in November. The crowning blow is: Don Porto does not live in the 26<sup>th</sup> district!

If I were a quitter, I would quit; but I am not.

I have asked Don Porto for permission to run in the Independence Party primary election against Tom Reynolds. Again it is up to him.

I need your help. Please call Don Porto (585-381-2138 or 585-586-6717), email ([ipmonroe@hotmail.com](mailto:ipmonroe@hotmail.com)), or write him at 6 Golf Stream Drive, Penfield, NY 14526-2520. Tell him the selection process was flawed and you would like to vote in an Independence Party primary between Reynolds and Davis to choose your Independence Party candidate for Congress.

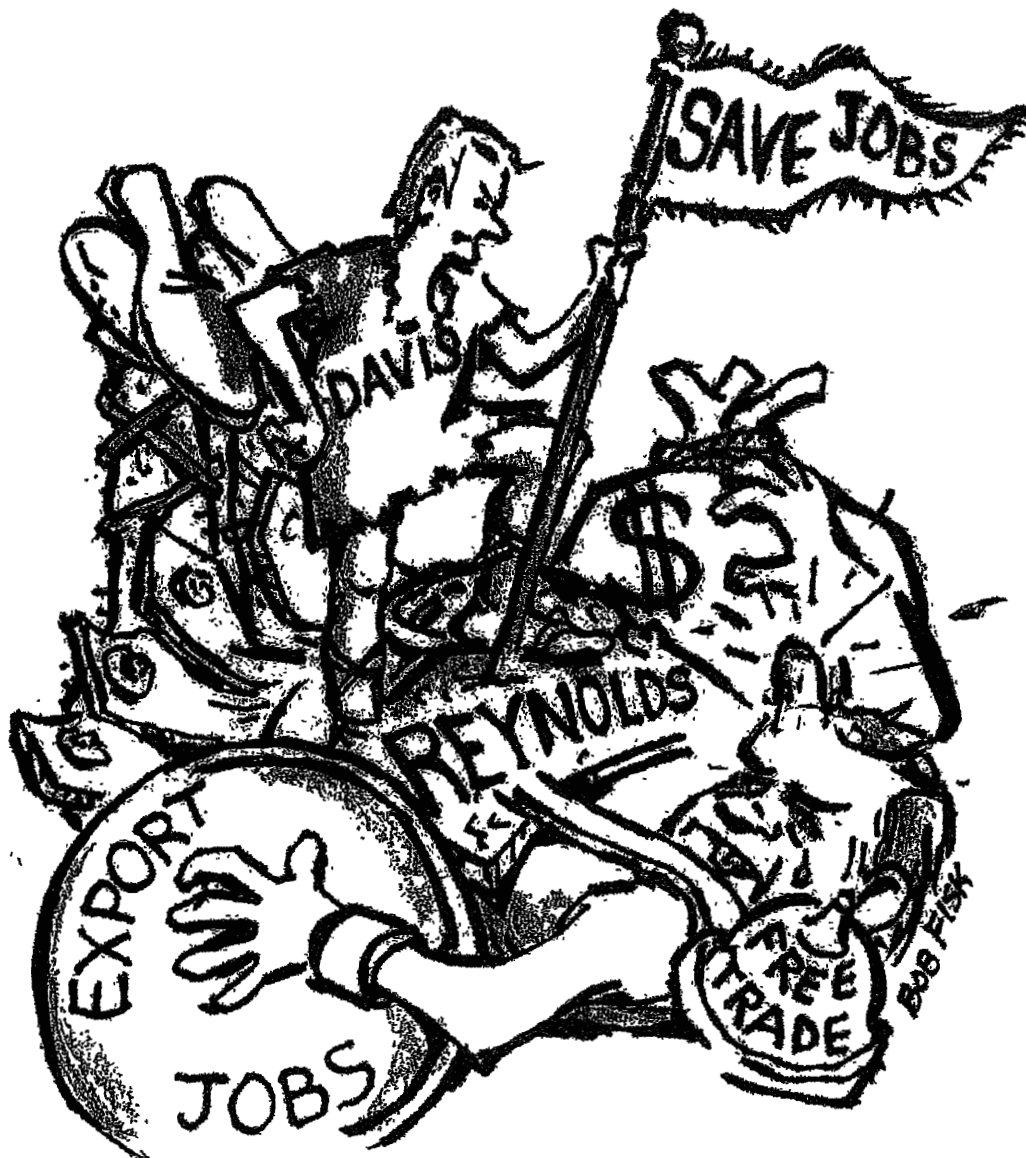

The second request: Don Porto, Tom Reynolds, or some other person they designate will ask you to sign the petition for Tom Reynolds. Don't sign the Independence Party petitions. Wait until I get approval to run in the primary of the Independence Party and then sign my petition.

Thank you for your support.

Jack Davis

A handwritten signature of Jack Davis, written in black ink. The signature is stylized and cursive, with the first name "Jack" being more prominent than the last name "Davis".

25190260349

#### **Under Congressman Tom Reynolds' watch**

Erie and Niagara counties lost 2400 jobs during 2003 with nearly all the job losses coming from manufacturing. Since 1998, one in every 5 factory jobs in the Buffalo-Niagara region has disappeared.

#### **Under Congressman Tom Reynolds' watch**

Between August 2000 and August 2004, Rochester lost 21,400 manufacturing jobs and Buffalo lost 14,300 manufacturing jobs.

#### **Under Congressman Tom Reynolds' watch**

The NYS Department of Labor reports that over the last five years the Rochester area lost almost 15,000 jobs and over the last six years the 'goods-producing' job loss was 35,000 jobs. During the same time frames, Buffalo-Niagara lost over 11,000 private jobs and over 18,000 'goods-producing' jobs

**VOTE FOR 'ACK DAVIS FOR CONGRESS TO SAVE  
AMERICAN JOBS, FARMS AND INDUSTRIES**

June 17, 2004

Dear Members of the Independence Party:

My name is Jack Davis; I'm running for Congress in the 26<sup>th</sup> District. I am an engineer, a former naval officer, and the founder, owner, and manager of a successful manufacturing business. My company is not for sale and it is not sending any jobs to Communist China.

The future of our country is at stake. We are at war – an economic war – and we are losing. The shock troops in this war are 60 million Chinese willing to work for 75 cents an hour.

Our elected officials, including Tom Reynolds, are doing nothing to defend us. Worse – they are actually encouraging American companies to move offshore.

I am a patriot and I am on a mission to save American jobs, farms, and industries.

For a nation to be strong, it must grow, dig, or make a product.

**My Platform (Short Version)**

1. I pledge to work to change America's policies on globalization, free trade, NAFTA, and the WTO. They are destroying American jobs, farms, and industries. I am anti-globalization, anti-free trade, anti-NAFTA, and anti-WTO.
2. I will take the lead in passing the balanced trade law.
3. I am for enforcing America's immigration laws:
  - No amnesty for illegal aliens
  - Deporting illegal aliens
4. I will take the lead in passing laws to reduce the high cost of health care and the high cost of pharmaceuticals for working families and retirees.

I have committed \$500,000 of my own money to this campaign.

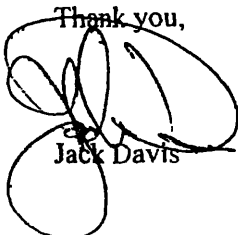

Tom Reynolds is a free trader and in favor of NAFTA and WTO and other free trade agreements yet to be signed. His major supporters are the managers of multinational corporations that are exporting American jobs to Red China.

Your choice is Jack Davis or Tom Reynolds as your Independence Party candidate for Congress.

Please contact Don Porto and other members of the Independence Party to discuss the lost jobs, illegal aliens, rising costs of health care, and then my candidacy.

Thank you,

Jack Davis

A handwritten signature in black ink, appearing to be "Jack Davis", written over a circular stamp or seal.

25190260351

# The Facts on Free Trade

<b>Fact:</b>	In the past three years, the U.S. has lost 2.7 million manufacturing jobs.
<b>Fact:</b>	Major U.S. companies like IBM, General Motors, Honeywell and others are investing billions and billions of dollars in manufacturing facilities in China.
<b>Fact:</b>	A labor pool of tens of millions of people in China is willing to work for less than a dollar an hour.
<b>Fact:</b>	Jobs losses extend beyond manufacturing to include hi-tech, call center, accounting, medical diagnostics and banking.
<b>Fact:</b>	Over the last two years, over 330,000 hi-tech jobs were lost to offshoring.
<b>Fact:</b>	<p>Massive wage differentials not only pull jobs to overseas locations but also have an erosive effect on wages paid to U.S. workers in these jobs. For example:</p> <ul style="list-style-type: none"> <li>★ The average senior software engineer in Silicon Valley earns \$130,000 while a senior programmer in India makes \$41,600.<sup>(1)</sup></li> <li>★ Computer programmers that would cost \$56 per hour in the U.S. are available in China for \$12.50 per hour.<sup>(2)</sup></li> <li>★ U.S. law firms are employing legal assistants and paralegals in India for a third of \$18-24 per hour that they would typically pay U.S. workers in these positions.<sup>(3)</sup></li> </ul>

**When you know the facts,  
you know why 'free trade' is bad for America.**

25190260352

# Look at what the experts are saying

- ★ The most widely cited projection is by a group called Forrester Research, which has predicted that 3.3 million U.S. jobs and \$136 billion in wages will be moved overseas by 2015.<sup>(4)</sup>
- ★ A Goldman-Sachs study estimates that as many as 6 million jobs could move overseas in the next decade.<sup>(5)</sup>
- ★ More specialized projections include the Gartner Group's estimate that 10 percent of U.S. technology jobs will have moved offshore by 2005<sup>(6)</sup> and that, despite the brewing political backlash, up to 25 percent of traditional IT jobs will be relocated from developed to developing countries by 2010.<sup>(7)</sup>
- ★ AT Kearney predicts 500,000 financial service jobs (8 percent of all U.S. jobs in banking, brokerage and insurance) will be shipped overseas by May 2008.<sup>(8)</sup>
- ★ Almost 5 percent of U.S. human resource jobs had been sent offshore by mid-2003, a figure that is expected to rise to at least 15 percent by 2007.<sup>(9)</sup>
- ★ A survey by the Chicago consulting firm Diamond Cluster International, Inc. found that 86 percent of corporate executives polled expect to send more technology jobs abroad in the next year, compared with 32 percent two years ago.<sup>(10)</sup>

Dear Fellow Seniors:

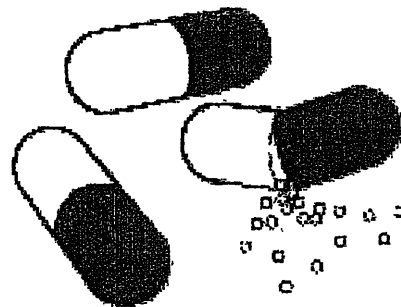

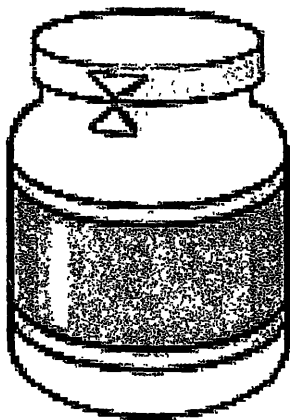

Is Tom Reynolds really interested in lowering the cost of medicine for the elderly?

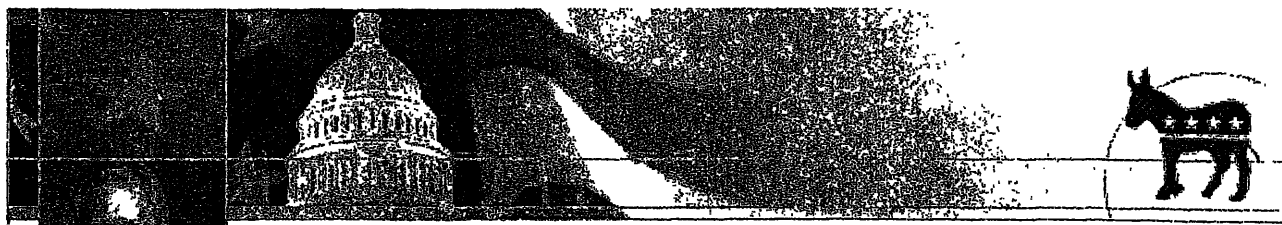

On July 14th, why did he vote for the Australian Free Trade Agreement which permits drug companies to block imports of low cost drugs?

His vote for the agreement is his vote against low cost prescription drugs.

Ask Tom Reynolds why he voted for the agreement and against our Seniors even though fellow House members Rep. Jack Quinn and Rep. Louise Slaughter voted against it and supported our Seniors.

- People concerned about low cost prescription drugs for seniors

### JACK DAVIS, CANDIDATE FOR CONGRESS, BLAMES HIGH COST OF GASOLINE ON BUSH-REYNOLDS FREE TRADE POLIC

In the Sunday Buffalo News it was reported that Representative Thomas M. Reynolds visited gas stations in Williamsville and Greece where he outlined a plan to lower gas prices by temporarily halting shipments of crude oil to the Strategic Petroleum Reserve. He has called on Energy Secretary Spence Abraham to suspend shipments of the crude oil to the petroleum reserves.

Reynolds claims that; "By temporarily halting shipments to the (reserve), were able to put oil back on the market and drive prices back down without depleting reserves that may be needed in the event of a critical oil shortage."

Jack Davis, running for Congress in the same Congressional district disagrees and states; "The amount of oil going into the U.S. reserves is insignificant when compared to the world production, and will not lower the price of gasoline even if the Energy Department agrees to Reynolds request."

Further, candidate Jack Davis points out that on the same Sunday, same paper, Meg Richards reported; "OPEC, which supplies about a third of the worlds oil, had long kept prices in a range of \$25 to \$30 per barrel - high enough to maintain revenues but low enough not to encourage conservation efforts or the development of alternative energy sources. But when the dollar started to weaken last summer, the group raised its price band to \$30 to \$35 per barrel, many analysts say the stage is set for prices to surge past \$40.

U.S. demand for energy has risen steadily as the economy has improved, but supplies of crude oil are tight, and likely to get even tighter if the Organization of Petroleum Exporting Countries

Further, candidate Jack Davis points out that on the same Sunday, same paper, Meg Richards reported; "OPEC, which supplies about a third of the worlds oil, had long kept prices in a range of \$25 to \$30 per barrel - high enough to maintain revenues but low enough not to encourage conservation efforts or the development of alternative energy sources. But when the dollar started to weaken last summer, the group raised its price band to \$30 to \$35 per barrel, many analysts say the stage is set for prices to surge past \$40.

goes ahead with planned production cuts next month. Terrorism fears and political unrest in Venezuela, the worlds No. 5 oil exporter, have further rattled investors and the prospect of continued rising demand from China has contributed to price gains."

"This is a result of the Bush-Reynolds free trade policy for it has caused a 30 percent devaluation of the dollar in relationship to the Euro and the huge investment of U.S. resources in China has increased Chinese demand for oil. These two issues drive up the cost of crude oil and therefore the cost of gasoline for Americans" concluded Jack Davis.

**Post my Comments**

**Name:** Shawn Borgosz

**Comments:** I have attended the meeting about free trade hosted by SAMNOW At this meeting I realized that it is time for men of action to stand up to "politics as usual" and fight for my daughter and unborn sons future Jack Davis is leading the fight for this area of the country and his winning a seat in congress over a dye in the wool free trader like Reynolds would be a huge jumpstart to the grassroots campaign we need to change the Economical atmosphere of this country. You have my support and service in this fight you are in Jack. Thank you for taking a stand for my families future. Come on people lets rally behind Jack and send Washington a message. "We Want Our Economy Back, We Want Our Jobs Back, America First!"

**JACK DAVIS FOR CONGRESS.com**

<b>CALENDAR OF EVENTS</b>	<b>CAMPAIGN HEADQUARTERS</b>	<b>JACK'S BIOGRAPHY</b>	<b>WHY HELP? WHY CONTRIBUTE?</b>
<b>ENDORSEMENTS</b>	<b>WHY REPUBLICAN JACK DAVIS BECAME A DEMOCRAT</b>		
<b>NEWS RELEASES</b>	<p>I am a patriot, love America and with this comes a duty and responsibility to protect America. America is in a trade war and is losing. We are hemorrhaging jobs, closing factories, and have a massive \$3.8 trillion trade deficit and a \$7 trillion budget deficit. America needs help and a change of policy.</p>		
<b>VOLUNTEER</b>	<p>I have been a Conservative Republican for all my voting years. I supported Goldwater in 1964. As an example of conservatism, I have paid into the social security system since 1948. I am 71 and therefore qualified for Social Security and Medicare. I have not enrolled in either program for I do not want the Government involved in my health care.</p>		
<b>CONTRIBUTE NOW</b>	<p>I like and have a high opinion of both President Bush and Tom Reynolds. I have financially supported Kemp, Paxon and now Tom Reynolds. In 2003 I sent the President and the Congressman each \$2000 for their re-election.</p>		
<b>MESSAGE BOARD</b>	<p>I do have a problem with their free trade policy. Please read my article "The Case Against Free Trade NAFTA &amp; WTO".</p>		
<b>PHOTO GALLERY</b>	<p>President Bush and Tom Reynolds are free traders. Tom has strong loyalties to the President, possibly stronger than to the citizens that elected him to office.</p>		
<b>PLATFORM</b>	<p>Writing letters to President Bush and discussions with Tom Reynolds about the loss of jobs and huge deficits caused by free trade have not been effective.</p>		
<b>CAMPAIGN TEAM</b>	<p>It is for this reason I have decided to run for Congress in the 26th District.</p>		
<b>CONTACT JACK</b>	<p>It is very difficult to defeat a well-liked Republican incumbent. Challenging and winning in a safe District like the 26th that has 33% more Republicans than Democrats is even more difficult.</p>		
<b>DISTRICT MAP</b>	<p>I therefore decided not to challenge Tom as a Republican in a Republican primary but seek the Democratic endorsement and challenge Tom in the November 2004 election as a Democrat.</p>		

Writing letters to President Bush and discussions with Tom Reynolds about the loss of jobs and huge deficits caused by free trade have not been effective.

It is for this reason I have decided to run for Congress in the 26th District.

It is very difficult to defeat a well-liked Republican incumbent. Challenging and winning in a safe District like the 26th that has 33% more Republicans than Democrats is even more difficult.

I therefore decided not to challenge Tom as a Republican in a Republican primary but seek the Democratic endorsement and challenge Tom in the November 2004 election as a Democrat.

Therefore Jack Davis became a Democrat. Not a liberal Democrat but a conservative Democrat, like his father, the blue collar, the gray collar,

25190260366

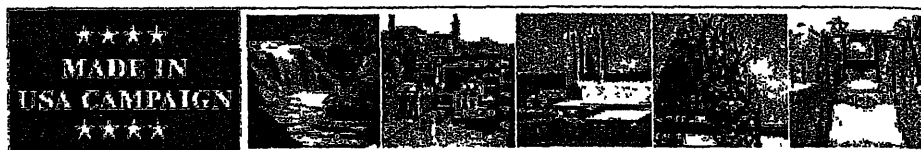

the white collar workers, the farmers, the small business owners and managers, the unemployed, the underemployed, soon to be unemployed, and the retired that look to the Government's safety net when needed. Did you notice this describes Democrats, Republicans and Independents too? These are the citizens most affected by loss of jobs from the present administration's free trade policies.

Washington elected and elite, Republicans and Democrats, believe that free trade is good for America.

Union and non-union workers have believed for 30 years that free trade is bad for them. Many are Democrats and their beliefs are closest to my own. Therefore I became a Democrat to help save American jobs.

I ask you to read my article "Who Is Jack Davis", my "Platform" or position paper, and then vote for the man and his plan.

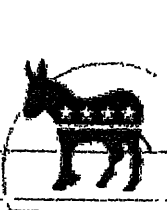

Jack Davis is founder (in 1964) and President of I Squared R Element Company. They manufacture silicon carbide heating elements that are used in high temperature industrial electric furnaces and located in Akron, New York.

### Why Help? Why Contribute?

American is in a trade war with Communist China and we are losing. There are 15,000,000 unemployed and a huge number of underemployed. Jobs will continue to be lost until we get America out of NAFTA and the WTO.

Please assist me in accomplishing this mission by helping Jack Davis win a Congressional seat in Congress.

I need your vote if you are in District 26 (Reynolds incumbent).

I also need financial assistance to for advertisements to educate and inform the other voters in my district.

About 5% of voters contribute to Congressional campaigns.

MAke this your first time. The standard of living of you, your children, your grandchildren and great-grandchildren all depend on saving jobs now.

I ask for a donation of \$5.00. If 200,000 Americans donate \$5.00, this would be 1,000,000 dollars and with this amount I am well on my way to be your "Save the Jobs Congressman."

# SAVE AMERICAN JOBS VOTE FOR JACK DAVIS

UNDER CONGRESSMAN TOM REYNOLDS' WATCH

Ernie and Niagara Counties lost 2400 jobs during 2003 with nearly all the job losses coming from manufacturing. Since 1998, one in every five factory jobs in the Buffalo-Niagara region has disappeared.  
712-552-0615

## UNDER CONGRESSMAN TOM REYNOLDS' WATCH

Between August 2000 and August 2004, Rochester lost 21,000 manufacturing jobs and Buffalo lost 14,300 manufacturing jobs.

## UNDER CONGRESSMAN TOM REYNOLDS' WATCH

The NYS Department of Labor reports that over the last five years the loss of private jobs in the Rochester area was almost 15,000 jobs and over the last six years the 'goods producing' job loss was 35,000 jobs. During the same time frames, Buffalo Niagara lost over 11,000 private jobs and over 18,000 goods producing jobs.

# VOTE FOR JACK DAVIS FOR CONGRESS TO SAVE American Jobs, Farms & Factories
