AOR 2002-02

The only candidate I will be soliciting for is Christopher Van Hollen Jr. I will be soliciting contributions from friends and family for his campaign for Maryland's 8th Congressional District. My activities will include:

1. Holding a private fundraiser for this candidate at my home, whereby I will send an invitation to friends and family members asking them to attend the fundraiser in exchange for a direct donation to his campaign. Checks will be made out directly to his primary campaign committee.

2. Besides the actual event, I will also be soliciting another group of friends, family members, and associates asking them to make a direct contribution to his primary campaign committee.

None of these solicitations or events will benefit any other candidate for any other office. They will be solely for this one candidate's run for Federal office.

Jay,

Just to clarify my situation, my intent is to solicit contributions from friends and family members to the primary campaign of a candidate for House of Representatives in Maryland's 8th Congressional District. I will probably host an event at my house and ask people to donate directly to his campaign. I will not be forming any secondary committees of any kind -- all contributions will be directly solicited for his primary campaign committee for Congress.

Thanks for your help on this matter.
