Dear FEC -

We object to the adoption of either draft A or B in AO 2015-09 at this time and to the waiver of the Commission's rules for timely submission of drafts. The drafts have been submitted too late for there to be effective opportunity for public comment.

This advisory opinion request has unusually widespread public significance. The Commission should ensure that there are at least 10 days following the publication of any draft opinion before a vote on the issue is taken.

However, we encourage the Commission to discuss the drafts with the requesters tomorrow, as scheduled, as we expect that such discussion would help to inform public comment.

We hope to have the time to file a more substantive comment later.

Sincerely,
Sai
