Hi Joanna,

In reference to our conversation this morning.

The Arizona Libertarian Party(AZLP) Approves the Extension request(August 23, 2019) for whatever time is necessary to reach a knowledgeable conclusion on the matter of the AZLP donating funds to the National Libertarian Party(LNC), specifically earmarked for use to support the LNC Customer Relationship Management System(CRM). We would like to know if these earmarked funds would surpass the threshold requirement to become an FEC filer.

To our knowledge, the Contact Data stored in the CRM Database cannot be used by any Third Party without the expressed consent of the AZLP. We will research the Data Sharing Agreement with the LNC to verify this conclusion and provide a copy of the Agreement as soon as possible, if applicable.
