Re: MUR 3774  
National Right to Work Committee

Dear Dawn:

In response to your letter of September 4, 1997, the National Right to Work Committee has conducted a diligent search of its files and has located the enclosed documents which contain information responsive to your request for specific cost information in connection with the mailings identified in paragraph 1 of your letter.

These documents have been grouped separately as follows:

- May 2, 1993 memorandum from Stephen Goodrick to NRTW Board of Directors. Portions of this document pertain to the mailings identified in your letter. It is most likely that those mailings fall under the "Prong 3" category discussed in the memorandum. Portions of the memorandum that do not pertain to the subject mailings have been deleted since they are not relevant to the FEC's inquiry and investigation.
- Document labeled "Supplemental Response to FEC (MUR 3774)." This document reflects the number of pieces mailed for each of the subject mailings.
- Document entitled "Project Summary Report." The highlighted portions of this document reflect the postage costs for the subject mailings. The highlighted portions identify the subject mailings as 1.A., 1.B., 1.C., 1.D., 1.E. in conformance with the designation of the mailings in your letter. This document does not contain complete

Oct 3 4 23 PM '97

Dawn M. Odrowski, Esq.  
October 3, 1997  
Page 2

OCT 3 4 23 PM '97

information in regard to mailing 1.A. but it contains all such information that the Committee has been able to retrieve from its files. The "mail codes" are the most important informational item for attempting to identify associated costs in the vendor invoices that are being produced.

• Two sets of documents comprised of canceled checks, vendor invoices, purchase orders, etc. The first group of these documents consists of sets of documents that are readily identifiable as pertaining to one of the subject mailings. That is, each invoice, purchase order, check, etc. in the set is connected with a mailing. The second group of documents contains sets of documents in which an invoice from a vendor pertained to several jobs or projects, not all of which were connected with the subject mailings. In this group, the invoices have been highlighted to identify the jobs or projects that pertained to any of the subject mailings and the related purchase orders, etc. have been attached. Also attached is the canceled check reflecting payment of the invoice. In this second group of documents, the Committee has done its best to identify the related documents that pertain to any of the subject mailings; however, the Committee is not absolutely certain that each document is directly related to one of the mailings. Additionally, in the search of its files the Committee was unable to locate all purchase orders pertaining to the subject mailings; the Committee has produced all responsive documents that it was able to locate and identify.

The documents produced by the Committee contain all of the information that the Committee has been able to retrieve concerning the number and costs of the subject mailings. The costs of postage, printing, list processing/rental, and mail shop charges were all external to the Committee and are reflected in the vendors' invoices and related documents. In some instances, copywriting and graphics for the mailings may have been performed in-house; there is no means by which the Committee can identify or quantify the costs related to those functions.

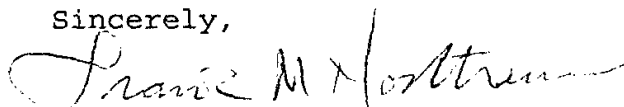

You also asked for confirmation that the costs for newspaper ads listed in Attachment F are accurate. The answer is "No." Attachment F reflects "bids" for newspaper ads as indicated. Submitted herewith is a check payable to Wheeler & Associates and the related invoices which identify the newspapers in which ads were placed and the costs of those ads. The Committee has not located any other documentation concerning the "R.I.P. [State] Right to Work" ads.

## BOARD REPORT INTRODUCTION AND OVERVIEW

This report will review the National Right to Work Committee's 1992 record-setting income performance and preview our plans for 1993.

In the 1992 election year, your Membership Department:

- Raised more dollars overall for the Right to Work cause than in any year since 1978.
  - Broke all yearly records for membership recruitment and new donor acquisition going back 15 years.
  - Generated more total income from our current donors than in any year on record at least as far back as 1982 (and probably since 1978.)
  - The Committee gathered over 364,000 petitions to Congress (and mobilized millions of Americans) in opposition to the Pushbutton Strike bill.
  - Implemented the most comprehensive Citizen Action Candidate Survey program in recent history.
- Your Communication Department created, designed and coordinated a year-long candidate lobbying program involving 1,707,091 mailings and 21 newspaper ad campaigns in targeted states and Congressional Districts.
- Redesigned, relocated, upgraded, expanded and re-staffed our Telecommunication Center in Virginia Beach.

The new location includes a small mail house operation, 64 telephone terminals with a state-of-the-art predictive dialer and expanded training facilities.

over 200

## 1992 IN REVIEW

End of year income reports reveal that the Committee has recruited a record amount of new funding from new Right to Work members who have never before supported our national programs.

Altogether, your Membership Department has raised \$1,691,078 in new/prospect money through December of this year -- more than any year since 1978.

This successful membership program relied upon 2 achievements -- a state-of-the-art telecommunication and a hard-hitting mail program.

Our successes encouraged us to expand the phone operation by 320% to allow us to more aggressively oppose the Pushbutton Strike bill in Congress this year. Forty-four more workstations have been installed on our old 20-seat phone machine. The expansion should pay for itself in well under a year.

The Committee has also invested heavily in mail-based membership recruitment to assure future financial stability and political potency. This membership expansion investment should begin to produce a net profit within 12 to 18 months.

---

Largely through our membership recruitment efforts, the Committee has gathered over 363,900 Citizen Petitions to Congress opposing the Pushbutton Strike bill.

The National Right to Work's strategy of unified, integrated communication with our members through regular housefile mailings and NEWSLETTERS/Action Information packets empowered our members to win numerous legislative victories in 1992.

Against all odds, member outcry in 1992 stalled the Hatch Act repeal bill, Big Labor's phony Campaign Reform legislation and the Pushbutton Strike bill in the U.S. House.

And in State Capitols across the land, legislatures adjourned with all 21 state Right to Work laws intact after an all-out assault by Big Labor.

When coupled with strong, inside legislative operations, the mail and phone program really works!

1993

## 1992 TOTAL INCOME SUMMARY

In 1992, your membership division raised a total of \$7,100,992 for the Committee's legislative programs. The following chart breaks down the income by donor category:

### **1992 Income Through December**

Special Membership Contributions	\$3,815,894
Membership Renewal Dues	\$1,594,020
New Member Contributions	\$1,691,078
-----	
Total Funds Raised in 1992	\$7,100,992

TX 21 (cont.)

SURVEY '92

The big news in 1992 was the Citizen Action **SURVEY** program.

Your Communication Department implemented **SURVEY '92** -- the most comprehensive Federal and State Survey program conducted by the National Right to Work Committee since the late 1970s.

The State and Federal Survey programs are perhaps the most important projects conducted by the National Right to Work Committee. Politicians tend to "listen better" to their constituents during election years. A strong outpouring of public support for Right to Work during these "sensitive" periods very effectively warns our enemies and encourages our friends.

Throughout this year, the Communication Department systematically alerted our members to the Right to Work positions taken by both Republican and Democrat primary candidates, district by district and state by state.

After the primaries, we turned our attention full time to mobilizing pressure on candidates for state and federal office prior to the General Election.

**SURVEY '92** was designed as a three-prong mail program:

Prong 1 -- First Member Letter launched our General Election survey program designed to put maximum pressure on candidates for federal office. We asked our members for their immediate action and financial support.

Mr. Larson then passed along any information (previous votes, union PAC contributions and/or Survey responses) we already had about the local candidates and their positions on the Right to Work issue.

Enclosed with the letter was a candidate roster (one for each state) and postcards asking House and Senate candidates to answer the NRTW Survey. Our members then mailed the postcards to their local candidates.

This survey prong piggybacked our regularly scheduled bulk rate September NEWSLETTER, allowing us to dramatically reduce our postage costs.

In nontarget districts and states, only active members were contacted (again, to reduce costs). However, in targeted districts additional members and supporters were mailed.

Prong 2 -- The Results Letter informed our members of the

positions taken by their local candidates for Federal office on the issue of compulsory unionism.

In addition, we detailed any other information we had regarding the candidates.

Mr. Larson asked our members to contact those candidates who supported Right to Work to thank them and encourage them to continue their opposition to forced unionism, in spite of Big Labor's political arm-twisting.

And Mr. Larson asked our members to put pressure on candidates who opposed Right to Work, demanding they change their position and renounce compulsory unionism.

This prong also piggy-backed our regularly scheduled bulk rate September NEWSLETTER, allowing us to further reduce our postage costs.

In nontarget districts and states, only active members were contacted (again, to reduce costs). However, in targeted districts additional members were also mailed.

**Prong 3 --**

The Target Letter mobilized our members in key House and Senate districts where we felt our **SURVEY '92** program had the best chance of turning the candidates around on the Right to Work issue.

The Target Letter powerfully reenforced the messages of the previous two letters and was all essential to the success of the entire program.

Because of time constraints, these letters had to be mailed separately to all members in our target districts at first class rates.

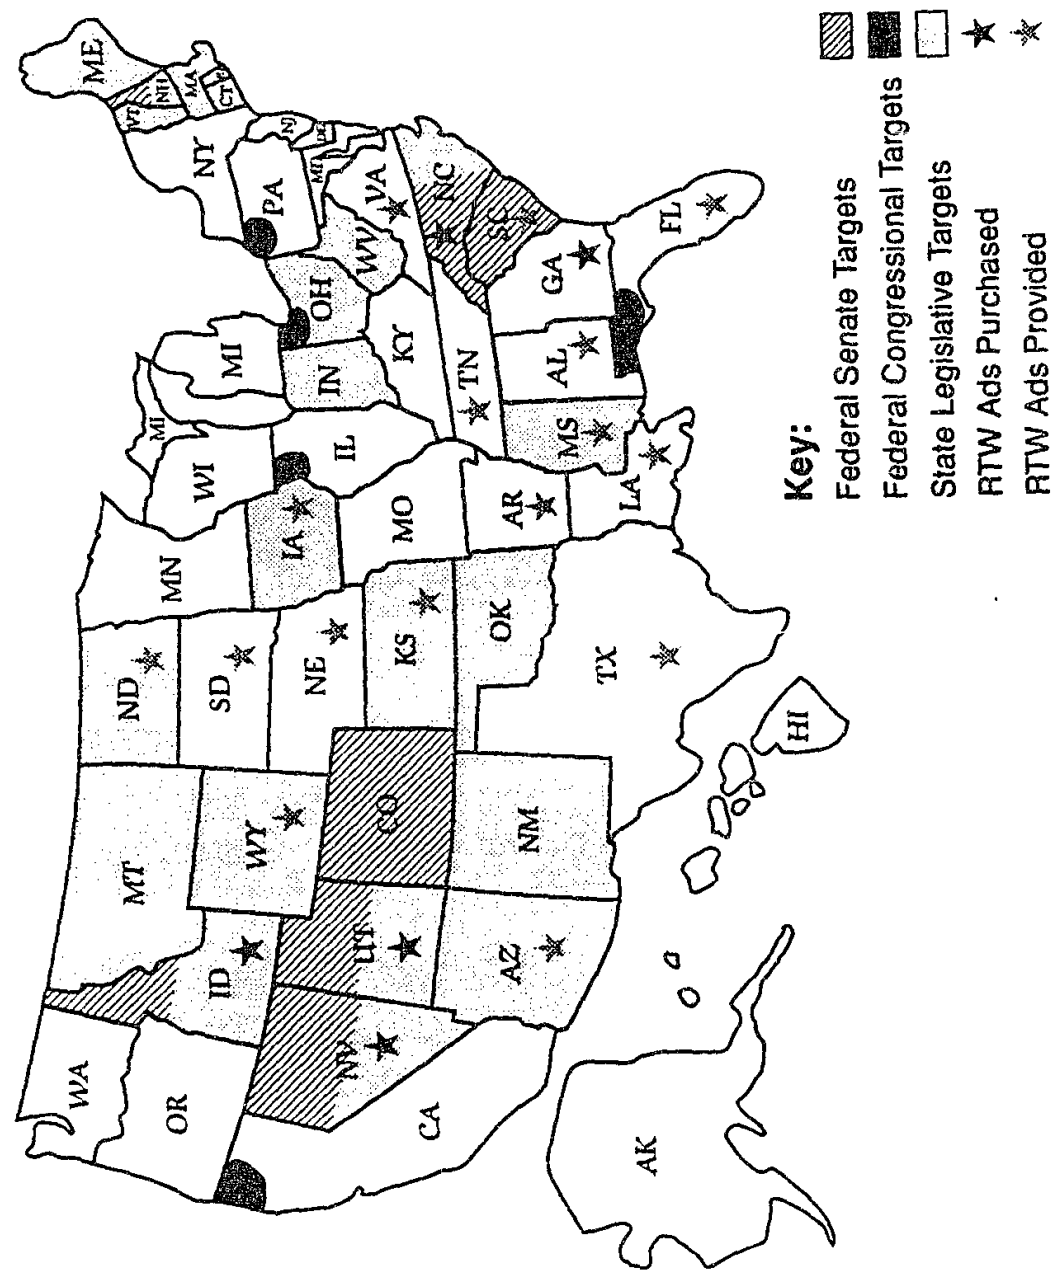

Although this was very expensive, you got what you paid for -- a major impact on the candidates just as they were frantically seeking the votes of our members.

Your Communication Department also executed the State **SURVEY '92** program in a dozen or more key states which closely parallels the federal program.

The following pages include a map of the districts and states we targeted for the **SURVEY '92** project and state mail totals.
