

CORRECTED CERTIFICATION

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained on the selective medium. The results are the mean of three independent experiments. Error bars represent standard deviation.

1. Enter into conciliation with respondent Carol J. Lewis prior to a finding of probable cause to believe, and approve the agreement attached to the General Counsel's June 10, 1998 report.
2. Deny the request to waive the confidentiality in this matter of information and actions protected by 2 U.S.C. § 437g(a) (4) (B) (i).
3. Approve the appropriate letter as recommended in the General Counsel's June 10, 1998 report.

Commissioners Aikens, Elliott, McDonald, McGarry, and Thomas voted affirmatively for the decision.
