RE: Complaint vs. Newt Gingrich *et alia*

MUR 4823

I am writing to file a formal complaint with the FEC about irregularities in the campaign-finance reports filed by three committees associated with Rep. Newton Leroy Gingrich (FEC candidate ID #H6GA06033):

- * the candidate committee ***Friends of Newt Gingrich*** (FEC campaign ID #C00237750);
- * the political action committee ***GOPAC Incorporated*** (FEC campaign ID #C00251801), which Gingrich controlled between 1986 and late 1994 or early 1995; and
- * another political action committee, the ***Monday Morning PAC*** (FEC campaign ID #C00304022), which Gingrich has headed since filing papers were first submitted for it in July of 1995.

I have documented 1,786 items – in reports submitted to the FEC by these three committees (during the periods when Gingrich was directly associated with them) – of major (\$200+) contributions from individuals for which the committees have failed to report any of the employer/occupation information required by law. The total dollar amount thus documented is in excess of \$1,000,000.

A summary table, breaking these figures out by committee and election cycle, is attached. I am also enclosing, on diskette, a spreadsheet file (in Quattro Pro and Excel formats) which lists the donor name, city, state, ZIP, date and amount of contribution, and receiving committee for each of the 1,786 items.

Over 600 of these specific items mentioned are also documented with the 11-digit microfilm image numbers of the pages on which they appear in reports filed by the committees with the FEC. These numbers were found by viewing report-page images in the FEC's on-line archives (available via www.fec.gov, at herndon1.sdrdc.com/ and la1.sdrdc.com/). The image archive covers only the most recent election cycles – and, in the case of Friends of Newt Gingrich, less than half of the 1996 cycle – so image numbers cannot be found on-line for all items.

The other items were identified from the FEC's overall database library of major individual contributions back to the 1980 election cycle. This information is available on-line through the "front-end processing" site FECInfo (www.tray.com/fecinfo/). The overall 1,786-item list was developed from that library and using that site.

The cycles covered for each committee are:

- * ***Friends of Newt Gingrich***: 1980, 1982, 1984, 1986, 1988, 1990, 1992, 1994, 1996, and 1998
(through the latest 48-hour notice report, dated 7/17/98).
- * ***GOPAC Incorporated***: 1992 and 1994.
- * ***Monday Morning PAC***: 1996 (from the initial filing papers, dated 7/6/95) and 1998
(through the latest monthly report, up to 8/31/98).

Gingrich also ran for Congress in the 1974, 1976, and 1978 elections – but no FEC reports by his candidate committees for these cycles are available on-line. Likewise, GOPAC was established in the late 1970s, and Gingrich took control of the group in 1986, but no FEC records on this committee's activities between that time and 1991 are available on-line. That suggests that Gingrich's career item and dollar totals for deficient reporting are higher than is explicitly documented in this complaint.

Another reason the gross totals must be regarded as conservative is that the analysis done so far only covers separate contributions of \$200 or more. It is much more difficult to track down any and all cases where smaller donations add up to \$200 or more, or add onto other major contributions, by the same person.

The Gingrich committees may claim that they have met the letter of the law by describing to the FEC a standard (routine) request process which they purport to follow. Such a statement would not by itself be proof that these committees have done enough to meet all of the "best efforts" requirements. In particular, there is no evidence in the record to date that the committees meet the requirement to fill in the blanks of employer/occupation information when they have information available on other donations by the same person in the same election cycle.

In any case, even if it could be granted that the committees had a technically acceptable process, the record shows clearly that the "best efforts" claimed are not good enough. The sheer scope of the committees' failure to report the required information – in numbers of items and dollars – is evidence of this. Gingrich's 15% failure rates on both these measures have held fairly constant over his career of federal fundraising (or at least the 20 years for which reports are now available on the Internet); this also serves to refute any such attempted defense.

Gingrich and his committees have engaged in nearly two decades of improper reporting of campaign finances. In view of that giant pattern of scofflaw behavior, I ask that any punishment of Gingrich or the other respondents in this matter be correspondingly severe. I look forward to hearing from you that justice has been done.

Signed and sworn to before me this day.
