Brant Levine, Esq.
Federal Election Commission
Washington, DC 20463

Re: MUR 5366

Dear Brant:

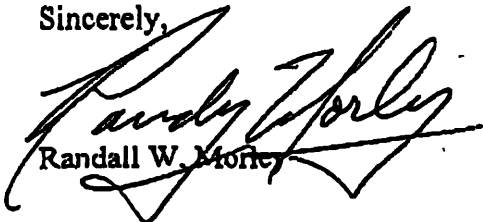

As we have discussed in our telephone conversations, I am counsel for Neal and Elizabeth Turner in the above-referenced matter. Due to my difficulty this week in getting their fax machine to receive the designation of counsel form I am trying to send, I do not yet have a signed designation for your file, however, I will have this next week at the latest.

The Factual and Legal Analysis submitted with the Commission's letter contains a number of fact statements about which the Turners' have no personal knowledge [the particular factual claims regarding the specifics of how the contributions were made by Tab Turner's credit card]. however, they believe that the factual statements within the analysis are generally correct. Neal specifically acknowledges that the boat was transferred to Tab. Elizabeth has no knowledge of any of the financial arrangements concerning the contributions.

Please contact me at your convenience to discuss how my clients may provide you with any additional information, or confirmation of the information you now have. In addition to the contact information on my letterhead, my cell number is (501) 680-1673.

Thank you for your consideration.

Sincerely,

Randall W. Morley
