I. INTRODUCTION

Complainants allege that the 58th Presidential Inaugural Committee, its designated
officer, Doug Ammerman, and its Chief Executive Officer, Sara Armstrong, violated the Federal
Election Campaign Act of 1971, as amended (the “Act”), and Commission regulations by filing a
disclosure report that did not include required information and contained false information.¹

Complainants also allege that Ammerman violated the Commission’s regulations by falsely

affirming that the report was true, correct, and complete. For the reasons set forth below, we recommend that the Commission dismiss this matter in an exercise of prosecutorial discretion and close the file.

II. FACTUAL AND LEGAL ANALYSIS

A. Facts

The 58th Presidential Inaugural Committee ("Inaugural Committee") was formed after the 2016 election to plan activities associated with President Donald J. Trump's inauguration. The Inaugural Committee filed its post-inaugural report on April 18, 2017. On April 25, 2017, the Huffington Post reported that the Inaugural Committee acknowledged that a final report it filed with the Commission contained errors. Based on this article, Complainants allege the following inaccuracies: the disclosure of 83 donations under five different names from the address of the National Republican Senatorial Committee ("NRSC"); four separate donations over two days from the same individual from four different addresses in three different states; and a donation of $25,000 in the name of Katherine Johnson whose address was listed as NASA's Langley, Virginia, Research Center. Complainants further allege that the Inaugural Committee reported a $400,000 donation from Isabel T. John with an address that is an empty lot. Complainants also allege that the Inaugural Committee received a total of $1 million

from four LLCs on the same day. All of these donations were reported as coming from the same
address in Portland, Oregon—the home address of the registered agent for the four LLCs, who is
also a hotel executive in Portland. The Complaint surmises that these donations, and others like
them, could be from straw donors.\(^7\)

Complainants allege that the Inaugural Committee did not ask each donor for his or her
address, but instead reported the addresses associated with access codes it gave to donors who
wanted to buy tickets from the Inaugural Committee's website.\(^8\) The Complaint contends that a
secondary market for these codes sprang up, and the actual buyer of a ticket was often not the
person who secured the access code. Thus, the Complaint continues, many of the reported
addresses of the actual buyers were wrong. It asserts that the Committee's system of raising
donations was not designed or intended to ensure accurate reporting to the Commission, which
resulted in multiple false entries on the Inaugural Committee's report.\(^9\)

The Inaugural Committee, Ammerman, and Armstrong jointly respond that the
Committee received thousands of donations during the post-inaugural reporting period of
November 29, 2016, through April 18, 2017, and a significant number of these donations were
received in connection with the sale of inaugural event tickets.\(^10\) Respondents state that they sent
a mailer to recipients inviting them to buy tickets through the Committee's website, which
required a user ID and password. Further, individuals who purchased tickets were required to

\(^9\) Id. at 8. In addition to reporting problems associated with on-line ticket sales, Complainants allege that the

provide a mailing address, and the website included disclaimers stating that the Act required the
Committee to publicly report the name, address, and amount of the donation for donors who made
aggregate donations of $200 or more. Respondents assert that neither the Act nor the
Commission regulations specify whether the address to be reported by an inaugural committee is
the donor’s business or residential address.

Respondents also maintain that a number of the allegedly erroneously reported
transactions were, in fact, accurate and properly reported. Respondents assert that the 83
donations from five different donors at the NRSC’s address were valid because four of the five
donors were NRSC employees, and the fifth was the NRSC itself. As to the four separate
donations over two days from one donor at different addresses, Respondents explain that the
donor was buying tickets to inaugural events for other people, and the different addresses were
the ticket recipients’ mailing addresses. Further, Respondents assert that the $1 million in total
donations through four LLCs was correctly reported on the original report based on the
information that the Inaugural Committee received.

Respondents acknowledge errors on the initial report. The Inaugural Committee states it
conducted a diligent compliance review and filed an amended report on June 29, 2017, which

committees require such committees to obtain or report information regarding the structure of an LLC or the }
partners of an LLC that elects partnership treatment under the Internal Revenue Code and Internal Revenue Service }
regulations. ld.}
Respondents assert resolved all the reporting issues identified in the Complaint. For example, Respondents claim that they corrected the address for the $25,000 donation from Katherine Johnson. Regarding the $400,000 donation from Isabel T. John, Respondents maintain that the donor’s bank caused the errors, and the amended report accurately discloses two separate donations from Isabel and John Tonelli from the correct address.

Respondents maintain that their reporting errors were inadvertent and technical, and that minor, technical amendments and reporting errors are fairly common for inaugural committees. Therefore, Respondents maintain, the Commission should exercise its prosecutorial discretion and dismiss this matter.

B. Presidential Inaugural Committee Reporting

A Presidential inaugural committee is appointed by the President-elect to be in charge of the Presidential inaugural ceremony and the functions and activities connected with the

21 Id. Respondents assert that the Commission’s Reports Analysis Division (“RAD”) raised questions about the 2009 and 2013 inaugural committees’ reporting, and after those Committees amended their reports, the Commission did not pursue enforcement matters against them. Id. at 13. Both inaugural committees received a Request for Additional Information (“RFAI”) from RAD regarding the disparity between the total donations listed on the summary page and the sum of donations itemized on Schedule 13-A, and there were also concerns regarding reporting of refunds by the 2009 Committee. See RFAI for Presidential Inaugural Committee 2009 (July 15, 2009) and RFAI for Presidential Inaugural Committee 2013 (July 17, 2013). Both inaugural committees filed amended reports. See Amended Report of the Presidential Inaugural Committee 2009 (Aug. 12, 2009) and Amended Report of the Presidential Inaugural Committee 2013 (Aug. 21, 2013). See also Miscellaneous Report by the Presidential Inaugural Committee 2009 (Aug. 17, 2009). No enforcement matters arose from either Committee’s reporting.
22 Resp. at 11-12. Further, Ammerman, who signed the disclosure report, and Armstrong, an officer of the Inaugural Committee, assert that nothing in the Act or Commission regulations imposes personal liability on an agent who signs a report or registration letter on behalf of an inaugural committee or on an individual for any alleged omission or reporting error. Id. at 13.
The Bipartisan Campaign Reform Act of 2002 ("BCRA") amended 36 U.S.C. § 510 to require the inaugural committee to disclose, in a report filed with the Commission within 90 days after the inaugural ceremony, certain donations made to the committee. The Commission promulgated regulations at 11 C.F.R. § 104.21 setting forth inaugural committee reporting requirements.

Within 15 days of appointment by the President-elect, the appointed committee must file a signed letter with the Commission containing the name and address of the inaugural committee, the name of the chairperson or the name and title of another officer who will serve as the point of contact, and a statement agreeing to comply with the reporting requirements of 11 C.F.R. § 104.21(c) and (d). An inaugural committee must file a report with the Commission within 90 days of the inauguration, disclosing the name and address of any person who makes a donation of money or anything of value that exceeds an aggregate of $200, and the amount and date of such donation. The chairperson of the inaugural committee or other officer identified as the point of contact must sign the report and certify that the contents are true, correct and complete. Further,
an inaugural committee must file a supplement to its report if it accepts a reportable donation, or
makes a refund during the 90 days following the end of the period covered by its original report
or most recent supplement.29

C. Analysis

Although we do not know the full extent of the Inaugural Committee's inaccurate
reporting, in view of the Committee's amendments to its report to correct addresses of certain
donors, and the Commission's treatment of analogous errors by recent Inaugural Committees,30
we do not believe that it is an efficient use of Commission resources to pursue this matter.31
Accordingly, we recommend that the Commission dismiss this matter in an exercise of
prosecutorial discretion and close the file.32

III. RECOMMENDATIONS

1. Dismiss the complaint in MUR 7244;
2. Approve the attached Factual and Legal Analysis;
3. Approve the appropriate letters; and

30 See note 21.
31 RAD reviews inaugural committee reports and sends RFAls for mathematical discrepancies, as noted
above, as well as for apparent serious violations at the discretion of the Assistant Staff Director. See 2015-2016
RAD Review and Referral Procedures at Standard 21. If the committee does not adequately respond to the RFAI,
RAD could refer the matter to OGC under Standard 30 (Other FECA Violations). See id. at Standard 30. RAD
reviewed the Inaugural Committee's amended report and did not send an RFAI.
