---

Hi,

This past Friday I received a letter from the FEC notifying me that I had failed to print the disclaimer on a handout that I was using when door knocking - MUR 7659.

As soon as I became aware of this, I ceased all activity with that flyer and all other activity until I was able to contact the FEC this morning. This is the first campaign that I have been involved in and I am the only person working on it. This was an honest mistake and I will not be using the remaining flyers unless I can bring them into compliance somehow through either stamping them or reprinting on them.

Until then, I will order new flyers with the disclaimer.

When I started this campaign, my biggest fear was that I would make this kind of ridiculous mistake and ruin my financial future. I have not yet been able to raise funds and any fine would destroy me and the campaign. If not for the fact that I am not sure if I can speak about this publicly, I would have already made a public apology.

I take this very seriously and have had trouble sleeping since being made aware of this. Please accept my sincerest of apologies in this matter. You can reach me any time at this email or at
