This is a frivolous action complaint. That's all I have to say.

Mr. Dale,

I am following up on the response for MUR 7703 do you still plan on sending one in or not? The case is going to be moved forward to the Commission and I would like to annotate the file accordingly. Thank you for your time.

Kind regards,

Ms. Dennis,

I received the letter you referred to last Thursday, March 19th and will formally respond within 15 days of receipt or sooner as your office's letter advises. I will mail my response to: FEC Office of Complaint Examination and Legal Administration as instructed.

All future hard copy correspondence should be mailed to me at:  
Ironwood, Mi. 49938.

The Complainant filed said Complaint on Feb 17th, 2020 - the day before the Primary election, which I lost, in an apparent attempt to generate media attention against me to influence the election's outcome. Additionally, all the allegations in the Complaint are substantially contrived and baseless.

Can I file a counter complaint? Does this Instant Complainant have a history of filing complaints with the FEC? Why hasn't the Complainant offered proofs

along with her Complaint?

Nevertheless, I will mail in my response with rule citations of and copies of the necessary proof that my campaign was in fact in overall compliance. I would do so today but my computer is in the shop for repairs.

Please feel free to contact me anytime.

Sincerely,

Lawrence Dale
