Sorry this is late. I have not opened my Gmail since the primary ended.

The first thing I did after registering for the senate race was to call the FEC for directions as to what paperwork was required. I was told that as soonj as I raised \$5k or spent \$5k I would need to register. I never raised any money and the only expenditure was the \$1740.00 filing fee, which I paid from my personal account.

Concerning the 2nd charge, ... I did not know it was a campaign violation to tell the truth.

Thankyou
Dennis Daneke
