

GREEN PARTY US

August 4, 2020

To whom it may concern:

The Green Party of the United States has carefully read Christine Wilson's complaint, and does not believe there are even allegations of violations of the Federal Campaign Act of 1971.

GPUS has not violated any statute or regulation, and requests that the complaint against GPUS be dismissed and that no action be taken against the Green Party of the United States.

Furthermore, our Communications Manager Michael O'Neil, also named in the complaint, has committed no violations of the Federal Campaign Act of 1971, neither as an individual, nor as an employee of GPUS. Mr. O'Neil began employment with GPUS in September 2019. He had completed his independent contractor work with the Hawkins campaign prior to his hiring.

Sincerely,

Hillary Kane
Treasurer
