

NEW JERSEY NOTARY ACKNOWLEDGEMENT

State of New Jersey)
)
 MUR 7776
)
 County of Ocean,)

I, Dean Stamos, being duly sworn, make this my affidavit and state:

My name is Dean Stamos and, after speaking with an F.E.C. representative today, I am reporting what I believe to be a blatant violation of Section 110.11 and potentially other F.E.C.L. violations.

No Disclaimer

On Wednesday, Aug. 5, 2020, a representative from Promark Research Corporation called my cellphone at 9:01 PM. I was driving at the time, but the incoming call was from a local number (908 374 1367), so I answered. The rep. told me that Promark was conducting an independent survey on a recorded line and asked if I would take part. I had about an hour's drive left but didn't want to spend the time listening to a sales pitch. So, I agreed to participate but asked, "Who's funding the research?" The rep. replied, "Promark is an independent research group." I said, "I understand, but someone has to be funding the research and asked directly, "Who's paying you?". The interviewer refused to acknowledge any political or other affiliations and insisted the multiple-choice survey was for Promark's "independent research."

Misleading, False and/or Defamatory

After asserting Promark's independence, the interviewer read statements most would believe were facts and asked questions that reinforced the statements. Questions beginning like "Knowing David Richter is a patriot, and Andy Kim voted to give illegal immigrants \$6,000..." were typical throughout the 34-minute call.

In closing -

1. I asked who was funding the research several more times during the call but got no answer.
2. Several statement-questions prompted me to say, "That's a lie," "I think you are breaking the law," or "You're defaming someone and could be liable."
3. According to Promark, there is a recording of the entire call.
