---

I am writing in response to a letter I received in the mail regarding a complaint that I may have violated the Federal Election Campaign Act of 1971.

I called several times in an attempt to get some more information, but I was not able to get in touch with anyone. I did work for New Breed Logistics from January 2006 till July 2010. During that time I did make a small donation to the Republican party. I think my donation was \$50. However, in no way did I feel pressured by anyone to make this donation, nor was I promised that I would be reimbursed.

If you have any further questions, I can be reached at
