To whom it may concern:

There are several of these billboards posted throughout Hocking County. As a Hocking County business owner, I do not approve of this message. The FEC, when asked, stated that there is no PAC called "Hocking County Business Owners". I have discovered, in very small letters on the billboard, that it says, "care of Andy Good" who is a local businessman. The concern is that it implies all Hocking County Business owners support this political candidate which is not true. Thank you for looking into this complaint. It will negatively affect business in our community.

Sincerely,
Richard Webb
