

To Whom it May Concern,

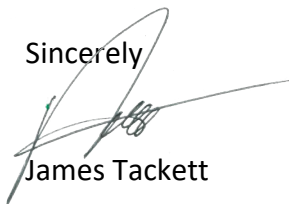

This letter is in response to MUR 7920. As I understand the complaint, the issue stems on the validity of the Oklahomans for Truth, Responsibility, Unity, and Markets PAC initial contributions between June 19, 2020, and August 22, 2020.

As stated in the Form 99 (FILING FEC-1435286) on August 26, 2020, it was my intention to file as a SuperPAC. When I contacted Maureen Benitz in the Report Analysis Division on August 25, 2020 in response to her letter advising of this issue, I specifically asked if I needed to refund these earlier contributions and have them contribute again so that these donations would be in compliance. I was advised by Ms. Benitz that it was not needed since my intention was to file as a SuperPAC at the formation of the committee on June 15th and that my Form 99 filing would suffice in covering the earlier donations.

As for the other complaints, the intention at the time of filing the SuperPAC was to spend money in both federal and state races. However, the need to participate in the federal race changed at a later date.

Please let me know if you need anything else.

Sincerely

A handwritten signature in black ink, appearing to read 'James Tackett', with a long horizontal flourish extending to the right.
