RE MUR 7986

To whom it may concern,

I have left a couple phone messages and am hoping that the details resolved it but figured it safer to follow up this way as well.

We donated to Nathan Magsig from our company account. This is an S corp that is ONLY owned by my husband and myself. from what I had verified it was not an issue since it could clearly be tracked directly to the 2 of us. If this needs to be done on a personal check only I am happy to do that and have them refund my corp check and replace with a personal check.

Please advise.

Thank you
