MUR 8032: Response of Bonneville County Republican Central Committee, Barbara Miller, its Treasurer

To Whom It May Concern:

On behalf of Bonneville County Republican Central Committee (the "County Party"), Barbara Miller, its Treasurer, and Nicholas Contos, its Chairman, I submit the following response to Complainant's dressed up allegations.

Introduction

It is evident that Complainant is upset about the internal politics of the state and county political parties. Complainant makes several allegations related to state party rules and the Bonneville County Republican Party's Bylaws. As the Federal Election Commission only has jurisdiction as to the Federal Election Campaign Act (the "Act") and the corresponding Commission regulations, we will limit our response to the allegations in the complaint that would violate the federal campaign finance laws.

Facts

Bonneville County Republican Party, otherwise known as Bonneville County Republican Central Committee, is a local party committee of the Idaho Republican Party. As with most local party committees, the County Party focuses primarily on state and local general elections. In an effort

to become more active, the County Party voted to amend its bylaws to engage in any primary election, which included contributions and endorsements of primary candidates in any election.

In anticipation of engaging in primary activity, the County Party established a subcommittee to vet the primary candidates for the May 2022 primary election in order to make candidate recommendations to the County Party for the County Party's sample ballot. The subcommittee was headed by Bryan Zollinger. The subcommittee completed its vetting process and made recommendations to the County Party who then voted on the final candidates to be placed on the County Party's sample ballot. The sample ballot endorsed 17 candidates, 15 who were state and local, and only two of whom were federal candidates. The total cost of the sample ballot, including to mail it out was \$13, 538.18. See Invoice attached. The sample ballot mailer included the following identifying information:

- the Bonneville County Republicans logo,
- the words "Official ballot of the Bonneville County Republican Party,"
- its website address, and
- in a blue box set apart from the rest of the text "Bonneville County Republican Party (208) 497-1211."

At the time of the facts at issue in the Complaint, Bryan Smith was one of four co-Vice Chairs of the County Party. Regarding the sample ballot mailer, Bryan Smith did not participate in the vote to select the candidates for the sample ballot, nor did he attend the meeting when the vote was taken.

While almost all of the contributions and expenditures of the County Party have been in connection to state and local elections, the County Party did make two contributions to Bryan Smith for Idaho Inc. in two different calendar years. The first \$1,000 contribution occurred on November 11, 2021, and the second \$1,000 contribution occurred on April 18, 2022.

Analysis

1. Federal law permits county parties to contribute to federal candidates, provided the funds for the contribution are federally permissible.

A local or county party committee may make contributions to federal candidates, provided those contributions are from federally permissible funds. MUR 6170 (Tuscola Co. Dem. Comm.); MUR 6192 (Madison Co. Dem. Comm.); MUR 7251 (Loudermilk for Congress, *et al.*); *see also* MUR 7376 (Charlotte Co. Rep. Party, *et al.*). Further, the Commission has established that so long as there is a reasonable accounting method to determine that the contribution came from federally permissible funds, then no violation has occurred. MUR 6170 (Tuscola Co. Dem. Comm.); MUR 7251 (Loudermilk for Congress, *et al.*); *see also* MUR 5973 (Warren Co. Dem. Comm.); MUR 7376 (Charlotte Co. Rep. Party, *et al.*); Advisory Opinions 2007-26 (Schock), 2006-38 (Casey State Committee).

A federal candidate committee may receive contributions from local party committees, provided the contribution is from federally permissible funds. MUR 6170 (Tuscola Co. Dem. Comm.); MUR 7251 (Loudermilk for Congress, *et al.*); MUR 6683 (Fort Bend County Democratic Party). Further,

the Commission has established that so long as there is a reasonable accounting method to determine that the contribution came from federally permissible funds, then no violation of the Act has occurred. 11 CFR 102.5(b)(1); Advisory Opinions 2007-26 (Schock) (where the Commission permitted a federal candidate to disburse funds from his state campaign committee to non-federal accounts of party and candidate committees, provided his state campaign committee used a reasonable accounting method to track the federally permissible funds); 2006-38 (Casey State Committee) (where the Commission stated it was permissible for a state campaign committee to use a reasonable accounting method to identify federally permissible funds in its state committee account and specifically cited two other Advisory Opinions, 2006-6 (Busby) and 2004-45 (Salazar) as the authority for two of those methods: "first in, first out" and "last in, first out"); MUR 6170 (Tuscola Co. Dem. Comm.) Factual & Legal Analysis at 5 (where the Commission stated federally permissible funds could be demonstrated through a reasonable accounting method); MUR 7251 (Loudermilk for Congress, et al.) Factual & Legal Analysis at 9 (saying that state committees may use a "reasonable accounting method" to separate permissible from impermissible funds and make contributions from the federally permissible funds); *see also* MUR 6970 (Peter Dicianni, *et al.*) Factual & Legal Analysis, FN 25.

Additionally, there are numerous examples of where the Commission has allowed federally permissible funds to be determined by a review of campaign finance reports. MUR 6170 (Tuscola Co. Dem. Comm.) Factual & Legal Analysis at 5-6. (where the Commission reviewed the local party committee's state campaign finance reports to determine whether the local party committee had sufficient federally permissible funds); MUR 6683 (Fort Bend County Democratic Party), Factual & Legal Analysis at 12 (where the Commission reviewed Fort Bend's state disclosures to find it had sufficient federal funds to finance activities related to a federal election); MUR 7251 (Loudermilk for Congress, *et al.*) Factual & Legal Analysis at 9 (the Commission reviewed the state committee's reports after the state committee did not present a reasonable accounting method and found sufficient federally permissible funds for its federal activity); MUR 5973 (Warren Co. Dem. Comm.), Factual & Legal Analysis at 10 (the Commission reviewed state campaign finance reports and applied a "first in first out" analysis to determine that the county party committee had sufficient federal permissible funds to pay for a public communication under the Act).

In MUR 6170, Complainant alleged a local party committee made contributions and expenditures in support of federal candidates without using federally permissible funds. Compl. at. 2. The Commission stated that federal contributions and expenditures must be made with federally permissible funds, which could be demonstrated through a reasonable accounting method. MUR 6170, Factual & Legal Analysis at 5. While the state limits and prohibitions were similar to the federal limits and prohibitions regarding contributions in MUR 6170, the Commission also reviewed the local party committee's state campaign finance reports and found that the local party committee had a sufficient amount of federally permissible funds at the time of the federal contributions. Factual & Legal Analysis at 5-6. The Commission found no violation had occurred since the local party committee had sufficient federally permissible funds. MUR 6170, Factual & Legal Analysis at 6.

Again in MUR 5973, the Commission reviewed the county party's state campaign finance reports after the complainant alleged a county party committee paid for a postcard that mentioned federal candidates with non-federal funds. Factual & Legal Analysis at 1, 10. Using a first in first out

analysis, the Commission determined that the county party committee had sufficient federally permissible funds to pay for the post card, and therefore, the county party did not violate the Act as to 52 US §30125(b)(1). Factual & Legal Analysis at 10.

Similar to MUR 6170, a local party, the County Party made a contribution to Bryan Smith for Idaho, a federal candidate committee. And just as in MURs 6170 and 5973, where the Commission reviewed the local party committee's reports, a review of the state campaign finance reports of the County Party here demonstrates that there were a sufficient amount of federally permissible funds for the County Party to make, and for Bryan Smith for Idaho to receive, both the contribution on November 11, 2021 and April 18, 2022. Specifically, based off the August, September, and October 2021 state campaign finance reports of the County Party, it had received at least \$3,250 in contributions from individuals under the federal contribution limit of \$2900. **See Attachment A.** Then, based off the April 2022 report from the County Party, between April 5th-15th, the County Party had received \$3,875 in contributions from individuals under the federal contribution limit of \$2900. **See Attachment B.** **Therefore, like in MURs 6170 and 5973, the Commission should similarly dismiss this allegation and find no reason to believe that the County Party violated the Act by contributing each \$1000 contribution from the local party committee, since the contributions came from federally permissible funds.**

2. Federal Law permits a local party committee to print and distribute sample ballots that reference federal candidates, as long as the local party committee has federally permissible funds to allocate to the costs associated with the federal candidates.

A payment by a local committee for costs associated with a sample ballot listing three or more candidates in the State in which the committee is organized is not a contribution or an expenditure under Commission regulations. 11 C.F.R. §§ 100.80, 100.140. The payment, however, by a local committee for costs associated with a sample ballot listing three or more candidates must occur from federally permissible funds. 11 C.F.R. §§ 100.80 and 100.140. In addition, the Commission has routinely allocated federal portions of a local party committee's expenditures. MUR 6161 (Hocking County Republican Party); MUR 5468 (Libertarian Party of Oregon); MUR 6683 (Fort Bend Democratic Party).

In MUR 6161, the Office of General Counsel allocated the federal portion of a local party committee's ad, which referenced federal, state and local candidates, by dividing the cost of one printing of the ad (\$216.75) by the twelve blocks (\$18.06), multiplying by the two blocks containing federal candidates (\$36.13), and multiplying by the two times the advertisement, ran, to arrive at a total federal portion of \$72.25. MUR 6161, First Gen'l Counsel's Rpt. at 4-5. Subsequently, the Commission accepted the Office of General Counsel's findings that the local committee did not exceed the registration threshold and dismissed the allegations.

Here, the Complainant either is unaware of, or ignores, the allocation of costs between federal and non-federal candidates and relies solely on the total printing amount of the sample ballot. The sample ballot identified *fifteen* state and local candidates and only two federal candidates, and yet Complainant alleges that the County Party did not have sufficient federally permissible

funds to pay for the sample ballot. Compl. at 6. The total printing cost of \$13,538.18, however, must be divided by 17, which is the number of candidates on the sample ballot. That division comes out to \$796.36 that is allocable to each candidate. Since there were two federal candidates on the sample ballot, that amount is doubled to equal \$1,592.72, which is the amount that needed to be paid for from federally permissible funds. As we have demonstrated in Section 1, the county party did have sufficient federally permissible funds to pay for the allocable costs for the federal candidates. Again, a simple review of the County Party's April 2022 report demonstrates it had received \$3875 in contributions from individuals under the federal contribution limit of \$2900. See Attachment.

3. Bonneville County Republican Party is not required to register as a federal political committee because its major purpose is not Federal campaign activity.

A local committee of a political party is required to register as a federal political committee if it makes payments exempted from the definition of contribution or expenditure aggregating in excess of \$5,000 during a calendar year or if it makes contributions in excess of \$1000 in a calendar year *and* importantly, *only* if the committee has the major purpose of Federal campaign activity, that is the nomination or election of a federal candidate. 52 U.S.C. § 30101(4)(C); 11 C.F.R. §§ 100.5(c), 102.1(d); MUR 7658 (Maine Democratic Party), Factual & Legal Analysis at 7 and FN 27. A quick review of the county's campaign finance reports demonstrate that their major purpose is state and local candidates, not federal campaign activity. Attachments A, B, & C.

Moreover, even if it was not evident that the County Party's major purpose is *not* federal campaign activity, the County Party does not meet the regulatory threshold of either \$5000 or a contribution in excess of \$1000 in a calendar year. The County Party made a single \$1000 contribution in 2021 to a federal candidate and a single \$1000 contribution to a federal candidate in 2022. Attachments A & B.

The Complaint alleges that the total printed cost of the sample ballot \$13,538.18 should trigger Federal committee status for the County Party. Compl. at 6. Yet, Complainant completely ignores Commission rules and precedent on the allocation of costs between federal and non-federal candidates. 11 C.F.R. §§ 100.80 and 100.140. MUR 6161 Hocking County Republican Party; MUR 5468 (Libertarian Party of Oregon); MUR 6683 (Fort Bend Democratic Party; MUR 6170 Tuscola Co. Dem. Comm.); MUR 6025 (Fort Bend Democrats).

In MUR 6161, the Office of General Counsel allocated the federal portion of a local party committee's ad, which referenced federal, state and local candidates, by dividing the cost of one printing of the ad (\$216.75) by the twelve blocks (\$18.06), multiplying by the two blocks containing federal candidates (\$36.13), and multiplying by the two times the advertisement ran, to arrive at a total federal portion of \$72.25. MUR 6161, First Gen'l Counsel's Rpt. at 4-5. Subsequently, the Commission accepted the Office of General Counsel's findings that the local committee did not exceed the registration threshold and dismissed the allegations. As we discussed in Section 2, the allocable costs for federal candidates for the sample ballot were a total of \$1592.72, well below the \$5000 threshold.

Therefore, the Commission should dismiss this allegation and find no reason to believe that the Bonneville County Republican Party violated the Act by failing to

register as a federal committee because the County Party's major purpose is not federal election activity. Moreover, the County Party did not make any federal contributions in excess of \$1000, and the amounts at issue here for the sample ballot are far below the \$5000 threshold required to register.

4. The County Party substantially complied with the federal disclaimer requirements for the sample ballot.

Commission precedent makes clear that where there is a failure to include the requisite disclaimer, but there was identifying information that specified the committee payor, the Commission will exercise its prosecutorial discretion and dismiss the allegations regarding a local party committee's failure to include a proper disclaimer. MUR 6683 (Fort Bend County Democratic Party); MUR 6170 (Tuscola Co. Dem. Comm.); *see also* MUR 6633 (Republican Majority Campaign PAC); MUR 6438 (Arthur B. Robinson); MUR 6270 (Rand Paul Committee); MUR 6278 (Segers); Heckler v. Chaney, 470 U.S. 821 (1985).

In MUR 6683, the Office of General Counsel found that a local party committee's voter guide failed to include the proper disclaimer after it left off the "not authorized by..." language and the committee's address, phone number, or internet address. MUR 6683, First Gen'l Counsel's Rpt. at 15. Subsequently, the local party committee admitted that it did not have the proper disclaimer and was not aware of the full federal disclaimer requirements. MUR 6683, First Gen'l Counsel's Rpt. at 15. As a result, the Commission accepted the recommendations within the First General Counsel's Report and dismissed the allegations based off past practices in similar situations. MUR 6683, First Gen'l Counsel's Rpt. at 15. Similarly, in MUR 6170, the Office of General Counsel found that a local party committee's newspaper ad failed to include the proper disclaimer even though it had some elements of a conforming disclaimer after not including the "not authorized by..." language. MUR 6170, First Gen'l Counsel's Rpt. at 7-8. Again, the Commission accepted the recommendations within the First General Counsel's Report and exercised its prosecutorial discretion to dismiss the allegations. MUR 6170, First Gen'l Counsel's Rpt. at 9.

Although Bonneville County Republican Party acknowledges that it did not include the technical version of the federal disclaimer on its Sample Ballot Mailer, any reasonable person receiving the County Party's mailer would have known that it was "paid for by" the County Party. Specifically, on the front, it included the Bonneville County Republicans logo and the words "Official ballot of the Bonneville County Republican Party." On the back it included the party's website address and in a blue box set apart from the rest of the text it includes "Bonneville County Republican Party (208) 497-1211." Compl. at 15

Overall, Bonneville County Republican Party is a small local party committee in Idaho which had not engaged in any federal activity before. As a result, it was not fully aware of the federal disclaimer requirements pursuant to 11 CFR § 110.11 that were required since its Sample Ballot Mailer, referencing seventeen candidates, included two federal candidates. The County Party has since educated itself on the federal disclaimer requirements and, as its newly appointed counsel, I have also briefed it on the matter, stressing the importance of complying with the FEC's regulations. Going forward, Bonneville County Republican Party agrees to fully comply with all the federal disclaimer requirements that are required on its applicable material. **Therefore,**

MUR 8032 Bonneville County Republican Party, et al. Response
September 5, 2022
Page 7 of 7

consistent with past practice of the Commission in similar situations where there was a failure to include the requisite disclaimer, but there was some identifying information of the committee payor, we request that the Commission exercise its prosecutorial discretion and dismiss this allegation.

Conclusion

For all of these reasons, I urge the Commission to dismiss this complaint, find no reason to believe, and close the file in this MUR accordingly.

Sincerely,

Rebekah Marino
