Subject: RE: MUR 8097 NGP Duplication Issue - Vandana Thirumale
Date: Saturday, February 4, 2023 6:00:10 PM

Mr Roy Lockett,

Per your letter of Jan 18th, reference number MUR 8097.

NGP DUPLICATION ISSUE

There are duplicate records of contributions that have been found for Vandana Thirumale in the letter received by Kumar for Congress.

The FEC was informed by Kumar for Congress last year about duplication of records in NGP - software used for the submission of the campaign financial records, which was discovered by the team during an amendment filing. Mary Seiler from the FEC has a written log on this duplication glitch after a discussion with Kumar for Congress on November 22nd, 2022.

The Kumar for Congress team will fix the NGP duplication error with an amendment that will be submitted ASAP. That will bring my general election total to \$2900 and the primary election total to \$2900 - which is the limit.

Please do look for this amendment from them and let us know that this addresses the issue. Sorry about the inconvenience this has caused. Do feel free to contact me at the number or email below if you have any questions.

Sincerely,

Vandana Thirumale
