RE: MUR 8320

Zinke for Congress, et al.

Dear Ms. Mackin:

On October 8, 2024, the Federal Election Commission notified your client, Zinke for Congress (the "Committee"), and Paul Kilgore in his official capacity as treasurer, of a complaint alleging violations of certain sections of the Federal Election Campaign Act of 1971, as amended (the "Act"). A copy of the complaint was forwarded to the Committee at that time.

Upon further review of the allegations contained in the complaint, and information supplied in response, the Commission, on April 29, 2025, voted to dismiss this matter and close the file effective May 29, 2025. The General Counsel's Report, which more fully explains the Commission's decision, is enclosed for your information.

Documents related to the case will be placed on the public record today. *See* Disclosure of Certain Documents in Enforcement and Other Matters, 81 Fed. Reg. 50,702 (Aug. 2, 2016).

Sincerely,

Lisa J. Stevenson Acting General Counsel

In Response, Zinke and the Committee argue that the advertisement in question displayed an adequate disclaimer and verbal approval,<sup>5</sup> that the advertisement does display an identifiable video or image of Zinke during the verbal approval.<sup>6</sup> and that the advertisement, even if there was a technical violation, "contains sufficient identifying information . . . to prevent the public from being misled as to who paid for it." Respondents request that the Commission dismiss the Complaint. Based on its experience and expertise, the Commission has established an Enforcement Priority System using formal, pre-determined scoring criteria to allocate agency resources and assess whether particular matters warrant further administrative enforcement proceedings. These criteria include (1) the gravity of the alleged violation, taking into account both the type of activity and the amount in violation; (2) the apparent impact the alleged violation may have had on the electoral process; (3) the complexity of the legal issues raised in the matter; and (4) recent trends in potential violations and other developments in the law. This matter is rated as low priority for Commission action after application of these pre-established criteria. Given that low rating and the unlikeliness that the general public would have been confused as to whether the Committee paid for and Zinke authorized the communication at issue, we recommend that the Commission dismiss the Complaint, consistent with the Commission's prosecutorial discretion to determine the proper ordering of its priorities and use of agency resources.<sup>9</sup> We also recommend that the Commission close the file effective 30 days from the date the certification of this vote is signed (or on the next
