FEC RELEASES 1991 YEAR-END PAC COUNT

WASHINGTON -- The total number of registered political action committees fell to 4,094 - its lowest level since mid-1986, according to a semi-annual survey taken December 31, 1992 by the Federal Election Commission.

The number of cooperative PACs registered remained the same, 57, while all other categories of PACs declined. Registration activity among the other categories included: corporate, -7; labor, -1; trade/membership/health, -7; non-connected, -13; and corporations without stock, -1.

Corporate PACs remained the largest category with 1,738 committees, followed by non-connected, 1,083; trade/membership/health, 742; labor, 338; corporation without stock, 136; and cooperative, 57.

Non-connected PACs, which are not candidate or party committees, must register and report to the FEC when financial activity exceeds \$1,000 during a calendar year. Connected PACs must register when established.

A caution - this release concerns a count of only federally registered PACs. Registration does not necessarily imply financial activity.
