Kendrick

We have reviewed the final report. Although it is pretty straight forward I would like to suggest a correction on page 5 paragraph 3 that states:  
LFAF provided no specific explanation for why the \$76,172 in contributions from individuals were not reported.

We would like to add: LFAF stated, “[t]he errors were obviously not intentional, but ... due to lack of experience from our volunteer treasurer.”

We did provide an explanation to the errors found and made every attempt to correct everything. Most of all the errors were in part to the volunteer treasurers inexperience and not filing the eberle reports of their bank account and receipts, but we due diligently have implemented measures and best practices to remain in compliance moving forward.

Can we have that final report edited so that we can move forward.

Thank You.

Bianca
