INTRODUCTION

This Directory has been prepared as a guidebook to locate and identify organizations and individuals at the state and national level who have a responsibility to disclose information on money in politics.

The term “money in politics” has been given a broad definition to include federal and state campaign finance reports, lobby reports, personal financial statements, public financing, state initiative/referendum spending, and a wide range of other financial filings.

The offices listed are those which have the primary responsibility to disclose the information. These include federal agencies, Secretaries of State, state commissions, boards and election offices. In some states, one office handles all the disclosure whereas in others, as many as four different offices handle disclosure. There may also be an additional office, such as the Office of the Attorney General, which has responsibility for issuing advisory opinions or enforcement actions. This type of office has been included since it may be involved in other court actions.

The individuals identified are those who supervise or control the records offices. In addition, other names have been listed when the Federal Election Commission staff has had regular contact with them and/or the state office has wished to list them. These persons may be involved with identification of candidates for the ballot, election results, voting accessibility, informational seminars or other communications. Not all staff members have been listed, but an attempt has been made to include those knowledgeable in the targeted subject areas.

The address and phone number of each office has been listed so that one may quickly contact the proper office. Uniform Resource Locators (URLs) have been included for those offices that maintain a site accessible through the Internet. E-mail addresses for informational requests (rather than for the submission of filings) are listed for those offices that have chosen to include them.

It is hoped the Directory will facilitate communication among disclosure officials across the country. While they work in various offices, they share common concerns: records storage and retrieval; computerization and utilization of other new disclosure technologies; guidance to regulated candidates and committees; assistance to the media and the general public; education of the electorate on the role of money in politics; and, recruitment of public-oriented staff.

EXPLANATION OF DATA

Because there are many different types of reports required by the states, the Directory has been limited to those reports which relate to public officials in the public trust. The Directory is not meant to be a definitive listing of all documents relating to public officials. Instead, it concentrates on reports concerning the use of money in politics, and provides contacts for information on the election process.

When identifying what type of disclosure is available at a specific office, the Directory uses several broad categories which are listed below. These categories have been applied to all the states.

Because state law varies widely (in the level of reporting, the frequency of filing, and the content of the reports), the researcher may find that the value of the data disclosed differs from state to state.

Types of Information

Candidates on Ballot

This notation indicates the office which maintains a list of those who have filed for office and those officially on the ballot. In some cases, persons may have taken earlier steps which indicate candidacy (such as filing a statement of candidacy or campaign finance report, or making a public announcement).

Campaign Finance Reports

State: This category includes reports filed by a variety of candidates or officeholders, political parties, political action committees, special interest committees, political committees, contributors, unions, corporations, and other filers.

Federal: This category includes reports filed by a variety of candidates or officeholders, political parties, political action committees, special interest committees, political committees, contributors, unions, corporations, and other filers. Where “online” is specified, the office is a participant in the Commission’s State Filing Waiver Program and provides for public review and printing of federal reports through online electronic access to the Federal Election Commission. Otherwise, disclosure is provided by duplicate paper filings submitted to the state.
Corporate Registration
This category includes registrations and/or reports from public, domestic, foreign or non-profit corporations, charitable organizations, or professional fundraisers.

Election Results
This notation indicates the office which maintains the vote results on a statewide basis. Because elections are controlled at the local, municipal or county level in many states, the results may not reach this office immediately after the election.

Electronic Filings
This notation indicates that the office currently receives, and makes available on the Internet, filings submitted electronically. The method of transmission to the office may be via computer disk, a direct modem connection or the Internet.

Lobbying
This category includes reports from lobbyists, employers of lobbyists, clients, or contributions of lobbyists to campaigns.

Other Court Actions
This notation indicates other state officials who may handle or assist in prosecutorial actions or constitutional challenges of state laws. In some states, agencies may divide or share certain authority in the areas of hearings, fines, subpoena of witnesses, civil penalties, criminal penalties, etc.

Personal Finance Reports
State: This category includes Ethics Act filings, conflict of interest reports, personal wealth statements, outside employment and outside income reports, and statements of substantial interest.

Federal: The office listed receives reports filed under Title I of the Ethics in Government Act of 1978, as amended, and/or makes them public. (Note: Section 8 of the STOCK Act of 2012, as amended, requires the Senate of the Senate and the Clerk of the House of Representatives to provide online public access to financial disclosure reports filed by Members of Congress and candidates for Congress.)

Public Financing
This category includes only reports which are available to the public. These generally involve matching fund requests or reports on disbursement of public fund grants.

Spending on Initiatives/Referendums
This category includes reports from entities spending and/or collecting funds for ballot questions, public questions, ballot issues, initiatives, referendums, and propositions.

Voting Accessibility
This notation indicates the state level office which handles implementation of portions of the Voting Accessibility for the Elderly and Handicapped Act (PL-98-435). This primarily relates to the accessibility of polling places.
