Ms. Ravel,

I read an article regarding a FEC meeting to discuss getting foreign money out of politics, and I am writing to you to express my support for the need to get foreign money out of politics. I also feel that we need to get other domestic money out of politics so that our politicians represent the people of their districts rather than only representing the wishes of corporations and wealthy donors. Please do the right thing and get both foreign and domestic money out of politics.

Sincerely,

Kathy Gilchrist

Ms. Ravel,

Please do all you can to change the rulings which allow foreign investments in US elections. I am sickened by the amounts spent on American campaigns every year, and I strongly agree this is one step our country needs to take to change this action. When I see that schools in my own state are now offering breakfasts and lunches to students of any and all income levels, and then read of the amounts spent on election campaigns, I am so angry. I wish I knew what more I could do to start a groundswell of support to make the changes. It is obscene the way money is donated and used on campaigns when there is so much more benefit this money could be spent on. There is no reason why overseas capitalists and corporations and businesses should be allowed to donate to our campaigns. This is influence that continues the downslide in American government which we have to stop.

Thank you for your work in this issue. Please tell me if there is anything further I can do (other than question and speak to anyone running for political office) in my own little way.

We absolutely must get Citizen's United overturned. Which means a SCOTUS that will understand the danger to our nation. Please Stop it!
