1977	\$8,695	160	7	\$1,281	\$8,695									

¹ As part of the upgrading of its information systems, the Commission has transferred historical enforcement matter information from an obsolete program to a modern database. Commission staff are continually reviewing historical files to verify the data entered for the years 1977- 1998. The information covering may be subject to modification as the data transfer is completed and verified.

² The ADR program began in October 2000.

³ The AF program began in July 2000.

⁴ A large proportion of Reason to Believe findings in Administrative Fine cases are made in connection with the reporting requirements surrounding the general election and the Year-End Report to close out the two-year election cycle. While the end of the election cycle falls at the end of the even-numbered calendar year, it falls in the first quarter of the odd-numbered fiscal year.

⁵ AF Two-Year Total column, reflecting the sum of two fiscal years: 2001-2, 2003-4, 2005-6, 2007-8, 2009-10, 2011-12.
