Brenda Wheeler
Auditor
Federal Election Commission

Re: FEC Audit

Dear Brenda:

I completed the 2010 amendments yesterday and sincerely want to "Thank You" and the rest of your team for helping me through this process.

From the date I started working here until now, the fact that my bank records did not coincide with the FEC reports bothered me, so to have your help in amending these reports and correcting the mistakes that were made, relieves me greatly.

It was also a pleasure having you and your team here to answer questions and to assist me when I had questions on these reports. I can honestly say this is a continuous learning process and I look forward to learning more.

I know that there will be more amendments to file as we now have the rest of the reports up and to today's date to amend and will need to get those to balance with our bank records, but I so look forward to the day when "line 8" matches what I have in the bank.

Line 8 on the "Year-End" report for 2010 is still off, but after you take a look at these you may find what needs to be done to correct it so our starting date in 2011 matches our bank records. I will wait until I hear back from you before any other corrections and amendments are made.

I'm hoping you will share my thoughts with the rest of your team and let them know just how much I appreciate the fact that they were here to help and not to intimidate me through this process. I guess when you know that mistakes have been made, it makes the process a whole lot easier. For us, it was just many errors in not knowing what needed to be reported and what schedule and lines the items needed to be reported on.

I look forward to hearing back from you on these and eager to start on the next step of this process.

Very truly yours,

Dee Stanley
