KSDP 09042012 Transfer.pdf;

Good Afternoon Camilla,

After further review of the data while completing the required amendments, I discovered that the transfer originally reported as a Levin transfer on Schedule H5, should have been an allocation transfer on Schedule H3. This transfer is now properly recorded on Schedule H3, as reflected in the amendments that have been filed. To further show that FEA transactions were not included in the calculation of this transfer, I have prepared a PDF report from our system and attached it this email.

I appreciate the guidance you have provided on this and the amendments that have been filed!

Thanks,

Matt
